

# ARE YOU EXPERIENCING HIP PAIN AND CONSIDERING HIP REPLACEMENT?

AMIS, Anterior Minimally Invasive Surgery, is a procedure<sup>1</sup> that may be appropriate for you. There are **NO MUSCLES CUT** with this method, which potentially bring more rapid recovery and return to your daily life. It may result in smaller skin incision and greater preservation of nerves around the hip joint. Discuss AMIS in greater detail with your doctor to get the best results out of your surgery.

Mr. Tsialogiannis is a distinguished Orthopaedic Consultant at Ashford and St Peter's Hospitals (ASPH) in Surrey, UK. He has been practicing orthopaedic surgery for over 15 years with particular expertise in more advanced and unique methods like AMIS. Mr. Tsialogiannis served as a medical officer in the Greek Army, where he held the rank of Major. He competed two highly recognised postgraduate fellowships at the globally leading centres of excellence in UK and Canada. Mr. Tsialogiannis has been awarded the Military Merit Medal and knighted into the Order of the Phoenix. In 2004 he was decorated with the United Nations Medal Award, for serving in the UN's peace keeping mission under the NATO command in former Yugoslavia.

Mr. Tsialogiannis has consistently distinguished himself in more advanced and unique ways to deliver excellence in orthopaedic care. He specialises in Minimally Invasive Hip Replacement techniques, particularly the anterior approach, which brings patients numerous benefits, including:

- Reduced recovery time
- Less tissue and nerve damage
- Shorter hospital stays
- Improved long term outcomes

In addition to anterior minimally invasive hip replacements, Mr. Tsialogiannis also specialises in FAST TRACK day cases, robotic-assisted hip replacement with artificial intelligence use. His focus on advanced methods ensures that patients benefit from the highest quality advanced technologies. He has a notably personalised approach, customising the procedure to each patient to achieve the optimal results. Choose Mr. Tsialogiannis for your hip replacement journey and benefit from the cutting-edge technologies to achieve best results for the surgery and your longer term well-being.
