

ETHICALLY SOURCED KEY INGREDIENTS + SKIN BENEFITS

Organic Argan Oil

From the Southwest regions of Morocco comes the Argan tree. Its seeds are used to produce exclusive Argan Oil, long known by locals for its nourishing and invigorating effect on the skin. 100% pure pressed, this luxe oil has a multitude of skin benefits;

- Protects and nourishes the skin
- Reverses environmental damage, wrinkles and premature ageing
- Anti-inflammatory, anti-bacterial & moisture retention
- Promotes tissue and scar repair
- 80% of Argan Oil is made up of unsaturated fatty acids that are extremely resistant to oxidation.
- High concentration of vitamin E and tocopherols in Argan Oil helps stop free radical damage to the skin, while helping to reduce wrinkles by restoring the skin's hydro-lipid layer.

Organic Aloe Vera

Aloe vera consist as much as 75 nutrients, 20 minerals, 12 vitamins, 18 amino acids and 200 active enzymes. Aloe vera contains Vitamin A, B1, B2, B6 and B12, Vitamin C and E, folic acid and Niacin. Minerals found in aloe vera include copper, iron, sodium, calcium, zinc, potassium, chromium, magnesium and manganese.

Vitamin C

Vitamin C is an antioxidant that plays an essential role in building collagen (the connective tissue that comprises up to 70% of skin) so it helps protect skin from premature ageing (like wrinkles). Levels of vitamin C in the skin decline with age, replenishing levels directly in the skin can help combat collagen degradation and oxidative stress.

Pro-Vitamin B5

Pro-Vitamin B5 (Panthenol) conditions the skin and promotes tissue healing. Vitamin B5 can provide a variety of benefits to the skin when applied topically to the skin:

- Improved barrier function
- Moisturisation of the Stratum Corneum

- Optimization of wound healing
- Improved appearance to ageing skin

Vitamin E

Vitamin E – is an antioxidant that protects & repairs the skin from free radicals and is essential for the proper utilisation of oxygen in skin cells; it helps soften and smooth the skin, relieves dryness and promotes healing.

Organic Rosehip Oil

Rosehip oil is full of vitamins, antioxidants and essential fatty acids that are known to correct dark spots and hydrate dry, itchy skin, all while reducing scars and fine lines. Rosehip oil contains a list of anti-ageing, skin boosting properties that put it at the top of the list for an everyday practice that can, over time, have a significant impact.

Natural Raspberry Seed Oil

Extraordinarily high in Omega-3 and Omega 6 fatty acids, Raspberry Seed oil is a superb anti-oxidant. It contains 83% essential fatty acids.

Raspberry seed oil is emollient, lubricating, conditioning, creates a lipid barrier providing protection to the skin and provides moisture retention for the skin. Its anti-inflammatory properties are greater than those of better-known oils such as virgin Avocado Oil, Grapeseed Oil, Hazelnut Oil and Wheatgerm Oil.

Walnut Extract

Walnut Extract assists in relieving the affects if skin conditions such as psoriasis and eczema. Rich levels of antioxidants and beneficial fatty acids nourish and condition the skin impacting on the health and appearance of skin.

Natural Cocoa Butter

High in antioxidants and fatty acids, Cocoa Butter provides deep hydration to dry and sensitive skin, alleviating the stress of skin irritations such as eczema and dermatitis. Additional benefits of Cocoa Butter are the reductions of stretch marks and scars.

Organic Coconut Oil

Coconut Oil hydrates your skin by replenishing your natural skin oils. Jam-packed with antioxidants, this wonder oil works to help your body fight against oxidation, increases hydration and reduces water loss in seriously dehydrated skin.

Natural Macadamia Oil

Macadamia Oil is rich in palmitoleic acid (Omega-7) , an Essential Fatty Acid that is produced naturally within our skin but readily decreases with age, causing our skin to become weathered. The palmitoleic acid work in sync with natural skin lipids to replenish the skins protective barrier against moisture loss, leaving the skin deeply hydrated, revitalised and healthy.

Caffeine

Caffeine fights UV damaged skin cells, has skin firming benefits and has anti-inflammatory properties to reduce puffiness.

Crushed Amethyst Powder

Amethyst therapy has been widely used amongst ancient European royalties for centuries as they noticed its special skin caring energy, scarcity and high price. Amethyst is the rarest form of quartz and has numerous natural aids for the body. Amethyst revitalises skin cells and protects them from ageing , improves skin tone and reduces wrinkles, encouraging healthy looking skin.

MOROCCANBLEND TECHNOLOGY

MoroccanBlend is the art and technology of solubilising and suspending Argan Oil in the solution in a perfectly homogenous mix. This unique and unmatched combination restores skins moisture for more healthy and hydrated skin.

DERMALOCK

A unique blend of natural components that are designed to build a barrier on the skin, capturing key ingredients to assist in the process of developing a deeper, longer lasting and hydrated tan.

MOISTURE LOCK

Infused with Organic Argan Oil, Vitamin E and Aloe Vera, our signature Moisture Lock combination softens and moisturises the skin keeping it healthy and hydrated.

FT100

FT100° (Firming & Toning Technology) a blend of Caffeine, Essential Vitamins, and Oxygen to achieve firmer skin and reduce the appearance of fine lines, resulting in overall younger looking skin, while maintaining natural moisture balance.

ENHANCED BRONZERS

All solutions contain added bronzers, from ash through to violet. They react independently from DHA. Their main purpose is to prevent any yellow or orange undertones that are naturally present in the skin. The ideal colour will come from each solution being used as directed, and being rinsed off after optimum time.
