Experience

2024 - 2025

Structura Inc. | 9517 McNeil Rd. Austin, TX 78758

Senior Superintendent

During my tenure at Structura, I contributed to the growth of the Healthcare division by leading pre-construction initiatives, directing project scheduling, and coordinating logistics across multiple healthcare projects. Serving as both Senior Superintendent and General Superintendent, I managed project teams to successfully deliver projects on time, within budget, and in full compliance with stringent quality and safety standards.

2015 - 2024

Lott Brothers Construction Company | 406 N Lee St, Round Rock, TX

Operations Manager

During my tenure at Lott Brothers Construction Company, I have advanced through key leadership roles including Project Superintendent, General Superintendent, and Operations Manager, with a focus on healthcare and multi-family construction. I have overseen the successful delivery of more than 3.1 million square feet of projects with a combined value exceeding \$700 million. My responsibilities include leading project teams through all phases of construction, coordinating complex operations, and ensuring successful project execution through strict adherence to industry standards, contractual requirements, and aggressive project schedules.

2012 - 2015

EBCO General Contractors | 804 E 1st St, Cameron, TX

Superintendent

Oversaw and contributed to the successful execution of six projects and 2 ground-up hospitality projects from start to finish. Played a hands-on role in managing daily site operations, coordinating with subcontractors, and ensuring adherence to project timelines, budgets, and safety standards. Each project presented unique logistical and technical challenges, offering valuable opportunities to deepen my construction management skills and leadership experience.

2007 - 2012

Truitt Group Commercial | FM 112 Thrall, TX

Superintendent

During my time at Truitt Group, I was involved in a diverse range of projects, including medical centers, Montana Mike's restaurant developments, and several custom homes. This experience provided valuable insight into multiple facets of real estate development and construction management.
