IMPORTANT POLICY REGARDING TESTING FOR THE OT-SC™

All OT-SC™ applicants should be aware of the following:

1. The OT-SC™ is not a standalone certification. It is not meant to replace the OTC® certification, only to enhance your original OTC® certification. **You must maintain the OTC® certification to keep your OT-SC™ certification.**
2. Upon successfully passing the OT-SC™ examination you will have your initial OT-SC™ certification period pro-rated to correspond to your OTC® expiration date.
For example: If your OTC® certification lapses in 2021 and you take and pass the OT-SC™ examination in 2019, your OT-SC™ credential will be valid from the date of passing the OT-SC™ examination until 12/31/2021 (the period when your OTC® lapses).

If you choose to recertify by CEU submissions, you will be required to submit with your OTC® CEU submissions, a prorated number of Category 1A credits by using the following table based on the length of your initial OT-SC™ certification:

1 Year:	3 CEUs
2 Years	6 CEUs
3 Years	9 CEUs
4 Years	12 CEUs
5 Years	15 CEUs
6 Years	20 CEUs

In the event that a certificant plans to retest for recertification of their OTC® credential, that certificant will be encouraged to wait to take the OT-SC™ examination until the year they are due to retest for their OTC® recertification, in doing so the OTC® and OT-SC™ expiration dates will coincide.

Following the initial OT-SC™ certification period, both the OTC® and OT-SC™ certifications would be valid for a period of six (6) years.

If you are recertifying your OTC® by examination, you must ALSO recertify your OT-SC™ by examination following successful testing of the OTC® examination during the same year.

I have read, understand, and agree to the above policy.
