

# SCARAB™ EAGLE 1600 PRECISION INSPECTION BOOTH

---

Manual inspection booths are specially designed workstations that provide a controlled environment for operators to conduct detailed visual inspections of products or components. The Scarab™ Eagle 1600 Precision Manual Inspection Booth sets the benchmark for manual visual inspection, delivering unmatched quality and cutting-edge technology.

### **LED LIGHTING**

- LED flicker-free lighting.
- 4 rows of 2 LED strips, independently adjustable of each other, used through an opaque diffuser for optimal light distribution.
- Fully customisable lux level settings from 300 to 10,000 lux.

### **SORTING TRAYS**

6 "bins" for easy sorting and efficient workflow.

### **INSPECTION PANELS**

Black/white non-glare background for perfect contrast.

### **INTEGRATED TIMER**

Customised enforceable work and rest periods.

### **FILE HOLDERS**

Built-in file holders for easy record keeping.

### **SECURITY**

Manual lock-out function for added security.

### **SCENE SETTINGS**

6 pre-programmable light level "scenes" for ease of inspection diversity.

### **UNMATCHED QUALITY**

304 Grade stainless steel structure.

### **FEET**

Adjustable feet for precise levelling.

### **COMFORT**

Removable pleather arm rest for added user comfort.

### **DIMENSIONS**

1,694mm x 540mm  
x 1,741mm (L x D x H)

### **WORK SURFACE**

Anti-microbial non-glare powder-coated work surface.
