

## AeroSouth Announces the Sapele Tiller and a Special Offer

**You've sailed hard all season.** Your boat has taken a beating and it's now time to make repairs and improvements, in eager anticipation of the next sailing season, when you'll be back on the water and loaded for bear!

AeroSouth wants to help you be all you can be as a sailor. We're happy to announce that we now offer **The Sapele Tiller**, crafted from strong and beautiful Sapele, the same mahogany variety from which we make our world-leading FS rudder blades and Sabre daggerboards.

As a means to thank the dinghy sailing community for their great support of our work in 2021, we're offering one of our clever new **Breezy wind indicators** at no cost on all purchases of our **FS rudder blades**, **Sabre daggerboards** or the **Extreme Speed Trio** through the end of 2021.

Breaking News: AeroSouth is beginning support for the **Howmar Phantom 14 Sailboat!** The first Phantom with AeroSouth components was on the water in Athens, Ohio this week, and the owner reports they all fit and function perfectly. **Contact us** for details if you have one of these

popular Sunfish clones from the past and want to **Sail Faster and Have More Fun!**

*All AeroSouth products are engineered and made in North Carolina, USA, the home of Extreme Dinghy Sailing.*

**SAIL FASTER - HAVE MORE FUN**
