# OUR EXPERIENCE YOU CAN ALWAYS TRUST

Specialized Engineers & Contractors
Waterproofing & Concrete Repair Division

## **OUR EXPERIENCE YOU**

## **CAN ALWAYS TRUST**

Our experience in Waterproofing & Thermal Insulation, Concrete repair, Concrete Injection works, Epoxy Flooring, P U Foam Spray, Building renovation & Maintenance has been over 25 years. We understand the needs & requirements of every project and we work hand – in – hand with Architects, Engineers and General Contractors to ensure proper materials are utilized in every case. We know what materials and techniques will yield the highest performance for our customer's condition and budget. Our corporate experience and the individual skill of our Engineers, Foremen and Workforce are the key to our successful performance.

## **General Manager's Letter**

Technology of Construction & Waterproofing Co. Ltd. plays a crucial role in

protecting the life of buildings as well as all concrete repair works. There is no alternative to quality products, efficient workmanship in a contractor. You can trust us with our highly skilled & experienced workmanship using top products. We have fulfilled all these needs for all our customers for many years. We work and collaborate with the most reputable and innovative companies who have the latest technology in the industry. We like to offer our customers the complete package and provide everything from our side, such as servicing at your doorstep, immediate site visit and maintenance etc. The perfect solution is to allow us to do your buildings' waterproofing, concrete repair works and ensuring it is on a high quality standard. All our engineers and staff members are well trained to the industry standards. Furthermore, security, discretion and confidentiality are important parts of their job specification. You do not have to be a regular customer of ours to request these services. We are happy to assist when needed and offer construction, waterproofing, and preservation services for structures. The company provides repair and restoration of existing building structures; crack sealing and concrete restoration services. There is an ever-increasing variety of waterproofing, Concrete repair works products are available. Some are must-haves and others will make structures even more stunning and easy to look after. We supply the products to meet the needs, whether private or commercial or governmental, from basic items to the world's finest ranges of high quality products and services. We supply the top brands as well as being the sole agent of so many local, international suppliers and manufacturers.

Please contact our Engineers for advice about the materials and solutions that will best meet your specific needs.

For those clients who wish to use their waterproofing, concrete repair works, Epoxy Coating, Building renovation or other related to Civil works, we have the perfect solution for all. You can drop by to make a purchase or simply place an order over the telephone, fax or e-mail. Our team is ready to serve you on your door step to give you full support and satisfaction.

Thanking you,

Engr. Salem Jundi General Manager

## 1. Quality Policy

We, Technology of Construction and Waterproofing Co. Ltd, (TCW) embrace current management philosophies and follow an effective & efficient Quality Management System (QMS). This philosophy aims to provide and maintain high quality and reliable services to ensure the requirements and expectations of the clients have been met and exceeded.

Achievement of this policy involves the integration of all staff members, each of whom is individually responsible for the quality of their work, resulting in a continually improving working environment for all. We endeavor to work as a team in a spirit of co-operation with the client and their professional representatives. It is the responsibility of the management team to ensure that QMS is implemented to all its staff members and that they full understand its requirements.

In fulfilling these objectives, TCW commits to:

- 1) Providing high quality standard and reliable services within the budget to ensure client's requirements are met.
- 2) To provide and maintain a clean and safe environment to its staff members.
- 3) To promote high standard of safety and health culture throughout the company.
- 4) Adopt appropriate preventive action to minimize ill health, incidents, and accidents.
- 5) Identifying training needs provide training and asses its effectiveness.
- 6) Conduct regular management review and continuously improve tcw-integrated system.

To continue to achieve the required level of assurance, the QMS is reviewed annually (or as and when required) by the management team. It is also available to all its suppliers, clients, and the public on the TCW website (www.tcw-sa.com).

### m TCW Management Team

## 2. Group Quality & HSE Policy

We at, Technology of Construction and Waterproofing Co. Ltd. (tcw) are specialized Engineers and Contractors for Waterproofing and Concrete repair works in the Kingdom of Saudi Arabia. To succeed, remain competitive and meet the progressive demands of this ever changing global market depends on our ability to continuously improve our services and sales quality while protecting our people and the environment in which we work in.

#### It is our Policy to:

- Induct processes and quality improvement tools to a better service. Sell & deliver consistent quality & cost-effective products and services, which meets our customer's requirement upto their satisfaction.
  Provide and ensure a safe & healthy working environment.
- Provide and maintain facilities, camps and equipment properly and timely.
- Impart necessary training to our employees that will empower them with the knowledge, expertise and information necessary to safely carryout their assigned duties and produce & deliver quality & environment friendly products & services.
- Promote a healthy, safe and environment friendly activities & awareness among employees, sub-contractors & other interested parties.
- Minimize from its activities waste generation, air emissions, pollutions and other discharges to the environment.
- Actively monitor, audit and review to improve QHSE processes and performances.
- As a minimum ensure statutory & regulatory compliance with the entire applicable national and international laws, regulation and other requirements.

To keep our bottom line healthy, the top management is committed to:

- Affectively deploy& continually strive to improve QHSE Management systems.
- Adopt corporate standards, ethics and professional code conduct.
- Keep our customers satisfied the first time and every time.
- Reduce quality costs, simplify design and enhance resources.

The responsibility for application of this QHSE policy lies with all the employees with the complete support and encouragement of a committed top management.

**Engr. Salem Jundi** General Manager

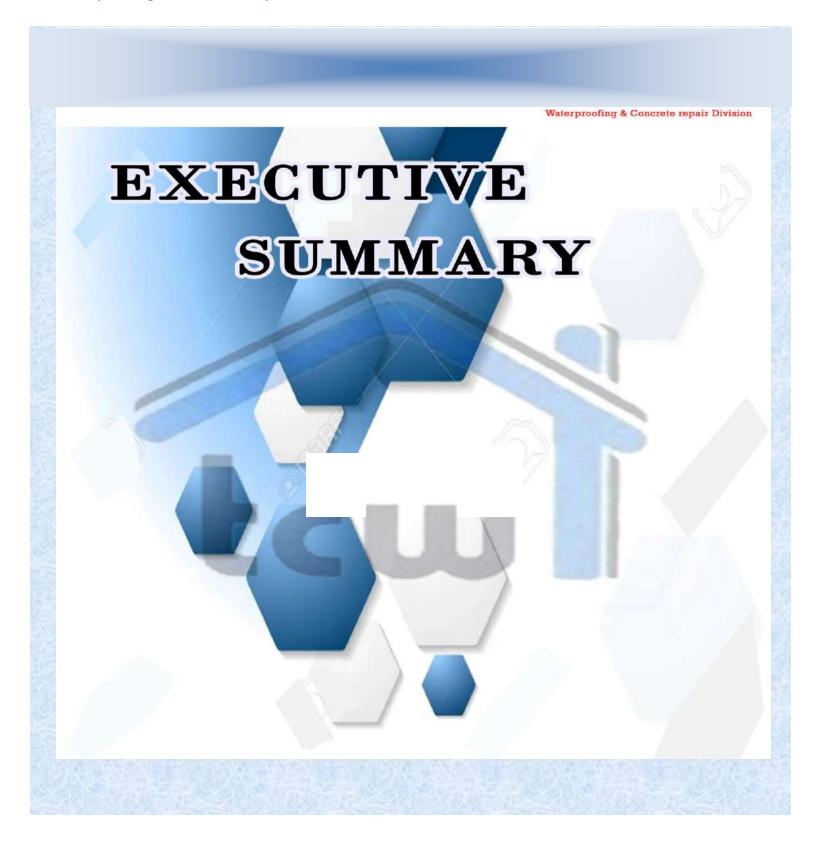

#### Waterproofing & Concrete Repair Division

**Technology of Construction and Waterproofing Co. Ltd.** is a Saudi – Foreign entity. Our company is specialized in a number of different fields ranging from waterproofing and insulation works, concrete repair, building maintenance, environmental lining, and special construction activities.

Technology of Construction and Waterproofing Co. Ltd. has trained all of its staff members to ensure that it has a strong and experienced staff and labor members in order to meet the client's requirements. The company has collaborated with many other reputable companies in Saudi Arabia and beyond and this has given it a unique reputation of being effective in its work. The Company is divided into 4 different major business units:

- 1. Building Waterproofing& Swimming Pool Waterproofing
- 2. Concrete repair Division
- 3. Protective Coatings works Division
- 4. Building renovation and Maintenance Division.

#### 1. Waterproofing Division:

Waterproofing is a fundamental aspect of creating a safe building. The roof covering materials, siding, foundations, and all of the various penetrations through these surfaces need to be water-resistant and/or waterproof. We provide different types of waterproof membrane systems such as damp proofing, thermal insulation / protection and **HDPE** geo-membrane lining works for ponds, swimming pools, pits, etc. TCW has built a strong reputation in the Kingdom as being one of the leading waterproofing Contracting company.

#### Waterproofing & Concrete Repair Division

#### 2. Concrete Repair Division:

TCW offers a comprehensive range of concrete repair solutions that meets and exceeds industry standards. Our concrete repair division is specialized in the following consulting and contracting services:

Injection of chemically treated concrete on dry and damp surfaces

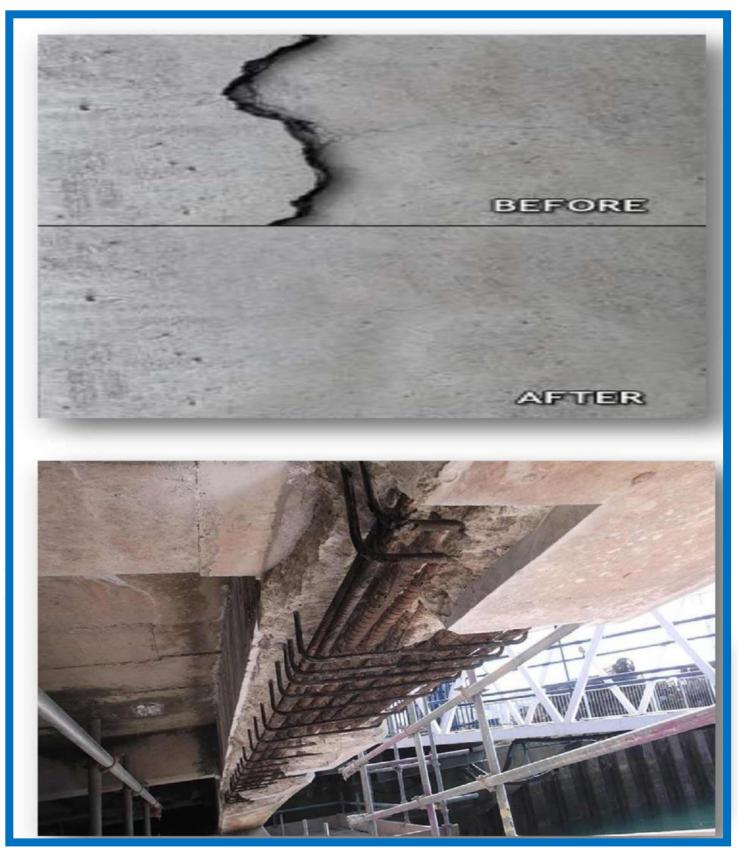

#### Waterproofing & Concrete Repair Division

#### **Shot- Crete:**

**Shot - Crete** is concrete (mortar) conveyed through a hose and pneumatically projected at high velocity onto a surface, as a construction technique. It is reinforced by conventional steel rods, steel mesh, and/or fibers. Fiber reinforcement (steel or synthetic) is also used for stabilization in applications such as slopes or tunneling. Shot-crete is usually an all-inclusive term for both the wet-mix and dry-mix versions. Shot-crete is placed and compacted at the same time, due to the force with which it leaves the nozzle. It can be sprayed onto any type or shape of surface, including vertical or overhead areas. We are using Shot - crete machines, which control complete process and made it very fast and easy. 'Manual and mechanical methods are used for the wet spraying process, but wet sprayed concrete is traditionally applied by machine. The high spray outputs and large cross-sections require the work to be mechanized. Concrete spraying systems with duplex pumps are mainly used for working with wet mixes. Unlike conventional concrete pumps, these systems have to meet the additional requirement of delivering a concrete flow that is as constant as possible, and therefore continuous, to guarantee homogeneous spray application. **TCW** is doing the Shot - crete works as per the site requirement and customer needs.

#### Waterproofing & Concrete Repair Division

#### **Protective Coatings:**

Concrete structures may be the buildings, bridges, primary & secondary containments and other reinforced concrete structures must need protective coating against rain, natural air & pollution, aggressive marine environment conditions and chemicals that affects adversely on the designed service life of the structures leads to an expensive refurbishments works.

Whether the purpose is to protect the new construction or refurbishment of the structures against aggressive influences such as water ingress, atmospheric carbonation, chloride ingress in marine environment or aggressive chemicals from degrading the structure, Fosroc is the manufacturer of choice assisting you with expert technical advice and guidance in selecting the protective coating solution to meet your performance requirements.

#### Types of Protective Coatings:

1. Epoxies

2. Polyurethane

3. Cementitious Systems

4. Sports Flooring

#### 1. Epoxy System:

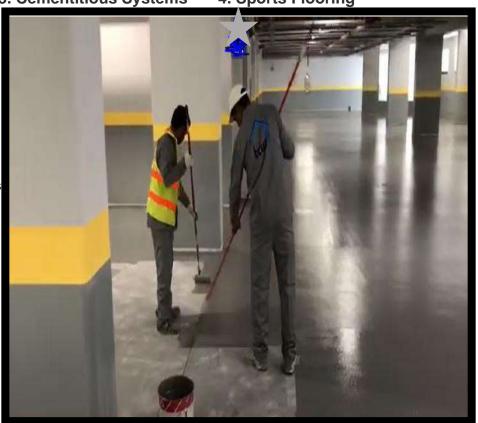

- Solvent 2 Components Systems
- Solvent free coating systems
- Self-leveling toppings 2-4 mm
- Car Park decking systems
- Pitch Epoxy Systems.

#### 2. Poly urethane Systems:

- Solvent base 2 Components Systems
- Solvent free coating systems
- Self-leveling toppings 2-4 mm
- Car Park decking systems
- Heavy duty screeds

#### 3. Cementitious Systems:

- Self leveling underly screeds
- Flooring repair mortars.
- Dry shake system

#### Waterproofing & Concrete Repair Division

## 4. Sports flooring:

- Acrylic based systems
- Poly Urethane based systems

## **Areas of Application:**

- Car Park
- Warehouses
- Factories
- Show Room / Hotel Lobbies
- Airports
- Tennis / Basket Ball / Volleyball Courts.
- Terraces
- Walkways.

#### Waterproofing & Concrete Repair Division

#### 3. Building Renovation & Maintenance Division:

**Renovation** (also called **remodeling**) is the process of improving a broken, damaged, or outdated structure. Renovations are typically either commercial or residential. Additionally, renovation can refer to making something new or bringing something back to life and can apply in social contexts.

We are the pioneers in Building renovation services. We provide many different types of services such as: building envelope restoration and preservation, concrete structure restoration, general electrical works, indoor renovation/restoration, exterior repair, facade repair, sealant removal and restoration, roofing restoration, waterproofing, external and internal carpentry, general welding, foundation repair, metal cladding and curtain walls restoration and masonry and cool building technology services are available. Commercial buildings, office and high-density residential buildings, industrial buildings, historical sites, manufacturing buildings and warehouses and distribution centers can be serviced. Our Rush services are available by our company for your immediate Civil based works requirement.

Our Local and foreign alliances with Waterproofing Material manufacturers are as strong as ever. We are approved distributors, re - sellers and applicators for:

#### Waterproofing & Concrete Repair Division

# ACCOMMODATION

#### Waterproofing & Concrete Repair Division

#### 6. Accommodations:

In this section, we are listing all the different types of accommodations that we provide to our workers in the Kingdom of Saudi Arabia. We provide accommodation not only in Jeddah but wherever the projects are located whether it is within Jeddah or outside. We also provide various other benefits to our workers such as transportation, catering, medical coverage and more.

#### **EMPLOYEES ACCOMMODATIONS**

**Details of housing facilities for our workers:** 

Туре	Capacity	Location	Owned or Leased
Apartments	25	Makkah - Azizia	Leased
Compound Villas	150	East Jeddah – Wadi Marikh	Leased
Compound Villas	30	Jeddah – Dahban	Leased
Apartments	20	Madinah – Shrae Dist.	Leased

#### A description of our Company's benefits to its workers:

- a) Accommodation: We ensure all of our employee's accommodation throughout our existing campuses. We provides all the necessary needs and facilities to accommodate our employees of which are bedrooms, bathrooms, storage etc. Where if needed, another suitable accommodation such as a villa or apartment will be provided to those that will be in the construction project.
- b) Transportation: We provide transport to all our employees of which engineers will be given their own individual vehicles. Our labor employees will be transported by a legalized driver through the use of our passenger vehicles such as our buses, pick-ups etc.
- c) Catering / Cooking Facility: As part of our accommodation, we provide complete cutlery services to all our employees throughout our housing locations that will be maintained in the correct manner.
- d) Medical Facility: Our employees' health and safety is one of our greatest concerns therefore we ensure all of our employees have a direct access to medical care in the local area where our accommodation sites are provided. All medical attention will be taken care of as the private medical support and our company has special agreements.

Waterproofing & Concrete Repair Division **EQUIPMENT** 

# łcw

#### Waterproofing & Concrete Repair Division

Looking at the list below, we provided a list of all our major equipment that we use in our projects.

Our warehouse (Store Room) and Equipment maintenance facilities is located in East Jeddah -

Wadi Mureekh, Jeddah, which is housed on a big warehouse bldgs. with an area of 1,800 sq.m.

This unit is staffed by the below mentioned personnel:

#### **Store Operation:**

- a. 1 Store Keeper
- b. 1 Store Assistant
- c. 1 Fork Lift Operator
- d. 2 Labors / Helpers

#### **Store Equipment Maintenance:**

- a. 1 Mechanic
- b. 2 Mechanic Helper
- c. 1 Auto Electrician

Waterproofing Project in Pfizer KAEC

Dear Salim Aundi,

Warm Greetings!

We appreciate the speed and professionalism of all your team We are thankful, impressed and appreciative of the safety precautions taken to ensure our Pfizer facility safe during your roofing needs process. The team you sent out did an excellent job and worked very well together.

Thank you so much for the terrific job.

Regards,

Pfizer Saudi Arabia-KAEC Plant

SAPMT has reviewed the subject submittal dated Apr 12, 2017 and has no objection with the following comments.

- 1. Restructure the content of the Method Statement into the following:
  - A. Purpose
  - B. Scope of work
  - C. Standard Reference
  - D. Definition of Terms
  - E. Responsibilities
  - F. Tools and Equipment
  - G. Material
  - H. Procedure
  - I. IFC/shop Drawing
  - J. Health, Safety and Environment
- 2. Attachment Project Specification, applicable to the below items.
  - a. Fully Adhered Membrane Roofing System
  - b. Thermal insulation
  - c. Protection Layer
- 3. Provide the detailed drawing for roof drain or scupper termination.
- 4. Include applicable IFC Drawing to verify the compliance of contractor shop drawing

RECEIVED
