HOME MAINTINANCE MANAGMENT

Deep Cleaning Service

We recommend all new clients begin with our Initial Deep Clean service.

This allows our team to bring your home to our signature standard of cleanliness — focusing on detailed areas that require extra attention such as showers, rangehoods, stovetops, and inside the microwave.

Starting with a deep clean ensures we create the perfect foundation for your ongoing maintenance cleaning, leaving your home refreshed, elevated, and effortlessly cared for from day one.

Following your Initial Deep Clean, we recommend maintaining your home with our General Cleaning Service — For you on going cleaning needs

Weekly General Clean

Our most popular option — designed to keep your home consistently pristine and beautifully maintained. Ideal for busy households or those who love their home looking its best at all times.

Fortnightly General Clean

A perfect option for those who require less frequent upkeep but still value a beautifully clean and refreshed home. This service ensures your space stays cared for and effortlessly maintained between visits.

Spring Cleaning Service

To ensure every area of your home receives the attention it deserves, we recommend upgrading one of your regular bookings to a Seasonal Spring Clean.

This detailed service allows us to focus on those often-overlooked areas such as:

- Internal windows and tracks
- Ceiling fans
- Air conditioning units
- Inside kitchen and bathroom cupboards
- Microwave and other detailed kitchen elements

We suggest scheduling a Spring Clean every 3 months to maintain these areas to the highest standard.

LUXE EXPRESS

Our Luxe Express Reset is a quick and efficient 2-hour service designed to bring order and calm back into your home – perfect for busy weeks or in between your regular cleaning schedule.

This service is not a deep clean, but rather a surface-level reset focused on the main living areas and high-traffic zones of your home.

Included:

- **Floors vacuumed and mopped**
- **Dusting of visible surfaces**
- **Bathroom surfaces wiped & refreshed**
- **Kitchen benches and surfaces tidied**

A simple reset to help your home feel refreshed, tidy, and ready for you to relax in. Time capped at 2 hours. Designed for maintenance, not detailed cleaning.
