

Focused Care Programs

- 🤝 Alzheimer's/Dementia Care
- 🤝 Fall Prevention
- 🤝 Congestive Heart Failure
- 🤝 Stroke Recovery
- 🤝 Respiratory Disease Care
- 🤝 Companion Services

Royalty understands the importance of individualized care. No two situations can ever be treated the same when it involves a person's health and wellbeing. We have developed a few key programs geared to address specific needs with regards to certain chronic health and safety situations. We have found that focusing on prevention and maintenance helps generate positive client outcomes in the home. To ensure the best start, each client receives:

- 1. An Initial Needs and Safety Assessment**
- 2. Qualified Caregiver Match**
- 3. Continued Follow-up & Care Supervision**

All care is provided by qualified caregivers and managed by a Registered Nurse

For More Information on these programs or to enroll please call: 336-623-2547
