Our vision is 'Corporate & Public Sector Professionals everywhere are the best they can be' - you can read our full vision and mission statement [here](#).

Our purpose is to empower individuals to perform to a professional standard, champion best practices in their sector, secure world-wide recognition, and create a network of opportunity. We are committed to building a programme for the future that provides excellent value for our individual members and corporate affiliate partners, collaborating with people and organisations to create and deliver quality content and information, learning opportunities, peer connections and support that enhances individual performance for sector professionals operating in both private and public sector.

Through our range of member benefits and the sharing of knowledge and best practice, we aim to build our thriving profession - an energetic, creative network of trained, skilled and knowledgeable professionals - encouraging them to support each other in learning and develop the profession's skills and expertise together.
