| 99.6% | Delivery Completion Rate | The % of your route that you deliver versus how many packages you bring back to the station | |
|---|---|---|---|
| 0 | Delivery Success Behaviors | The number of packages you deliver calculated against the number of packages that don't get received by the customer (packages that are grouped, delivered over 25 meters from door, marked "Delivered to Customer", or POD is not taken) | Package Delivery Accuracy & Standard Practices |
| 98.7 | Photo on Delivery | Quality of each photo, taking photos every time you are supposed to, not bypassing the photo option | |
| 100% | Call Compliance | Calling & texting customer when you are not able to deliver a package according to their notes or cannot access their building | |
| 0 | Attended Delivery | Don't overuse "Delivered to Customer" as this option should be used vary rarely | |

# PROPER PARK SEQUENCE

==Proper Park Sequence, all drivers need 98% or higher to remain compliant:==

**Proper Park Sequence is important because it keeps the van from rolling away while you are parked and Making deliveries.**
