/ LIBRAESVA

«After testing many different security solutions, we chose to move to Libraesva. The main attractions were the ease of use from a management point of view and the amount of technology built into the solution at no additional costs.»

ASTUTUS

OVERVIEW

Ukuzimanya is a Managed Cloud Services and Security company comprising 25 employees. Ukuzimanya is committed to providing state-of-the-art IT services and Managed Cyber Security Solutions. The company strives to cultivate a culture centered around education, collaboration and exceptional service delivery and its mission is to be the pillar and partner between people and technology to enable business to thrive and succeed.

THE NEED

«With our Astutus Cyber Security product, we required a vendor that offered the best email security and archiving capabilities, backed up by a proven track record. We evaluated many options and, after a careful analysis, we decided to implement Libraesva's solutions. Our Astutus product is designed with a focus on superior performance, as we continuously seek new technologies to enhance our suite, ensuring 24/7 security and peace of mind for our clients in this cyber-criminal world.»

TECHNICAL IMPLEMENTATION
—

«Libraesva's intuitive design and pre-built automation templates removed configuration complexities, allowing our team to grasp core functionalities quickly. Libraesva provided exceptional support and guidance throughout the process, addressing any technical queries with efficiency and clarity, and acting as an extension of our own team. Their expertise ensured a smooth and efficient onboarding experience.»
