

/LIBRAESVA

«I would definitely recommend Libraesva Email Security to other educational institutions. It allows us to block dangerous email messages and stops spam from annoyingly filling our inboxes. We have over 1000 students in our school, protecting their data and privacy is of paramount importance so choosing the right email security solution was vital.»

Carina Momsen
IT Coordinator

OVERVIEW

Paarl Gimnasium is a high school situated in Paarl in the Western Cape of South Africa. It is a prestigious school with a rich history and tradition and is consistently ranked among the top schools in the country.

Paarl Gimnasium is a school that believes in the importance of academics and sports and provides its students with the opportunity to excel in both areas, preparing the students for success in life.

THE NEED

«We were looking for a solution that would protect our faculty and students from cyber-attacks spread through malicious emails. We also needed to reduce the amount of spam we were all receiving daily.

Our IT partner presented us with various options, and we chose Libraesva Email Security as it presented the best overall solution to meet our needs and budget.

After a successful testing phase, the solution was rolled out to our faculty and students by our trusted IT provider, and we can confidently say that our spam has been reduced to almost zero.»

EmailSecurity 

TECHNICAL IMPLEMENTATION

«We were very pleased with the speed and efficiency of the technical implementation, the support we received from both our IT partner and the vendor was exceptional. The interface is user friendly and has made the training and adoption that much quicker. Faculty and students no longer need to spend time trying to distinguish between legitimate and non-legitimate emails. Notably no downtime was experienced during any phase of deployment from POC to live.»

BENEFITS & RESULTS

Blocking dangerous emails: phishing, BEC, malicious attachments

Infinitely modifiable dictionary for safeguarding students
