Survey Overview

A total of 150 random surveys were sent out to the GPP residents selected from a Registered Voters lists provided with no names associated with the addresses provided under the registered voter tab.

The 12th and the 17th, and the 23rd addresses were selected from each page.

There was a 60% response rate.

Response details are provided. 38 additional resident comments were provided and are attached.

Conclusions

This survey clearly demonstrates the desired use of Trombly as an educational institution.

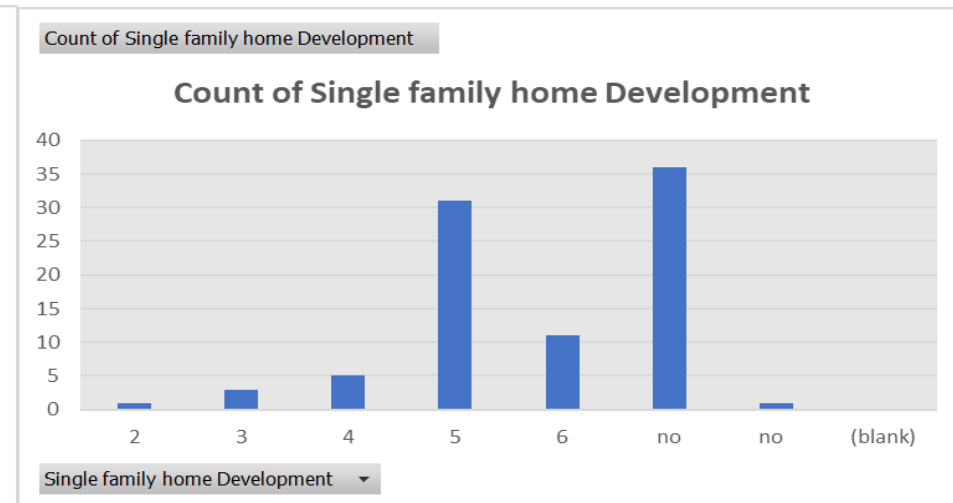

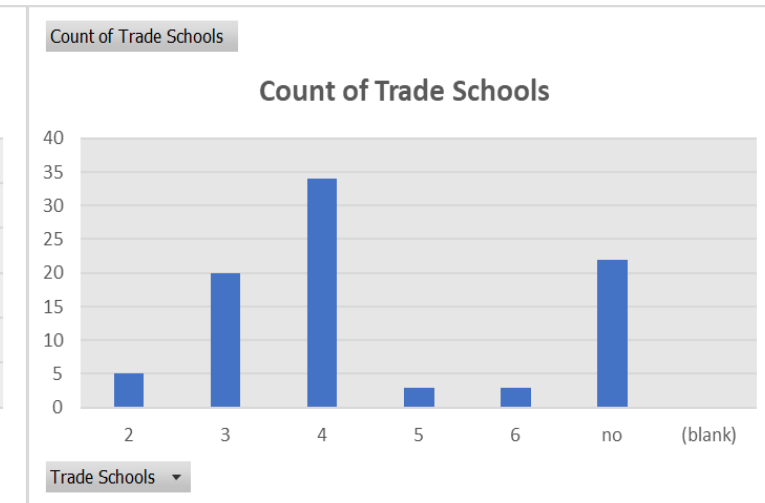

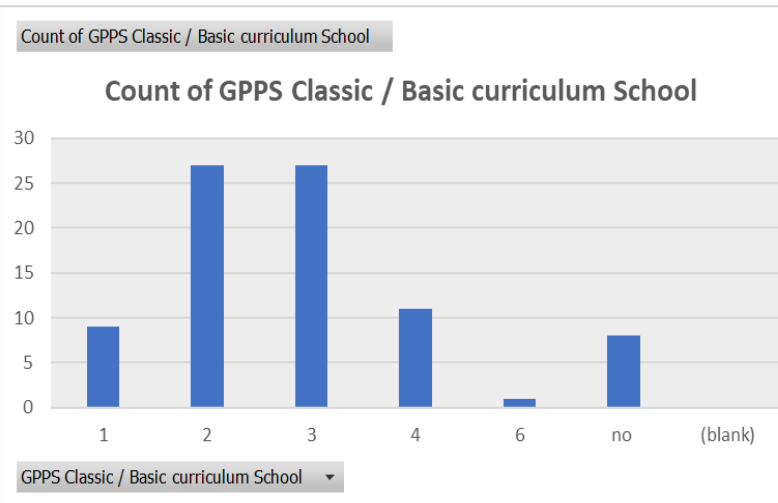

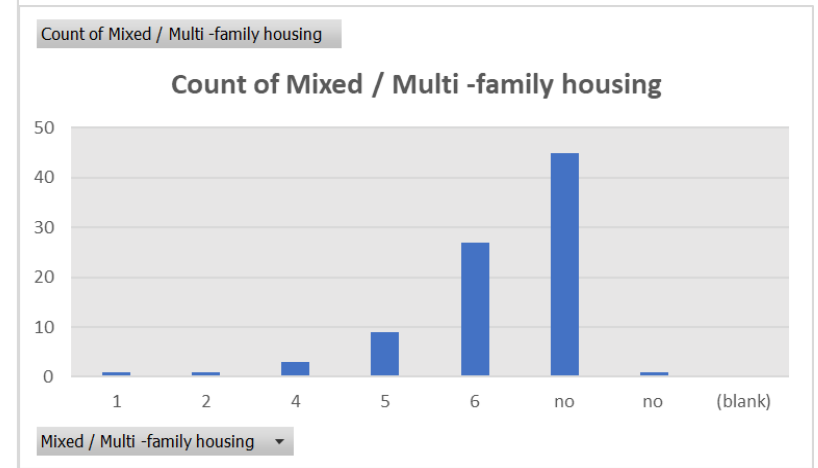

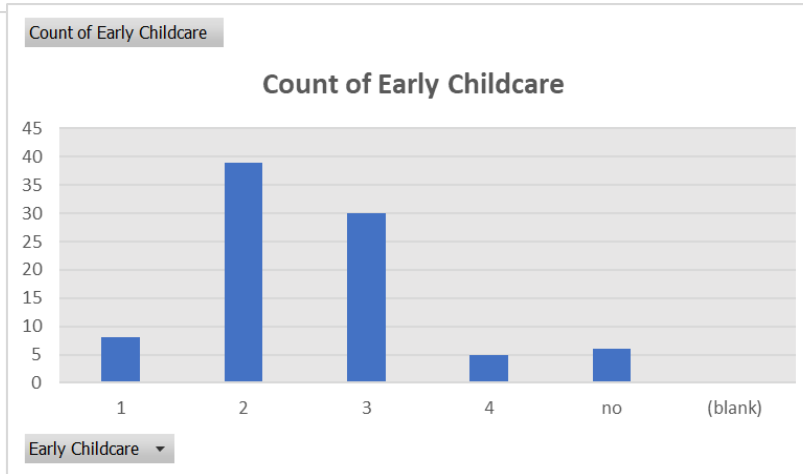

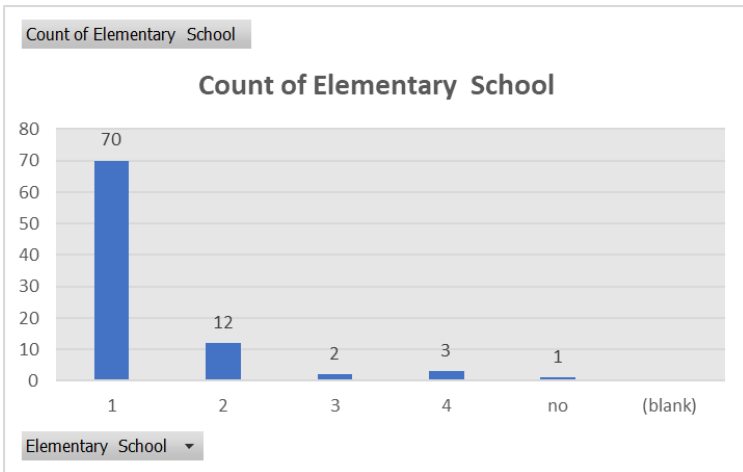

Representation of GPP resident's preferences dictate that Trombly should be zoned accordingly. Multi-family use/family or single-family use demonstrates little to no interest from respondents, accordingly GPP zoning should be maintained for educational purposes.

Serious and proactive initiatives to maintain Trombly as an educational institution should be the top priority of the BOE, GPP Council and Community.

The BOE and community understand cost cutting and asset sales will not be enough to solve BOE budget needs. Revenue from returning students is fundamentally necessary. Only BOLD moves will motivate the 1000+ students to return to our district. Different from the status quo will trigger the necessary response for parents to change schools for their children.

Solutions can be found with the end goal in mind.

Supporting Data

We should preserve this property for community use

People bought homes in the Tromby area with the thought that their children would be able to walk to school.

Define Classic Curriculum school

Define Classic Curriculum school

Trombly needs to be an elementary school again. Our community south of jefferson deserves and warrents it. Tons of young famlies are moving in as ederly ones move on. Thank you.

Use of a number of education options should be able to work. Keeping education possibilities and maintaining the neighborhood upkeep and providing safety for our children. This would help keep up values of our homes in that area of GP.

We have lived in GPP for 43 years with my husband. We have two grandsos born here and they both attended Trombly Elementary. It atracted families with children to move here. Our children could walk to and from school with their friends and some became street crossing guards. Please do not allow it to be torn down. Offer other educational purpose is best. Id much rather see it opened as an elementary school again. Thank you for allowing me a voice.

Make the best use of it. I applaud you for your effort but, I have not relevent information to make an educated decision.

Saddend by apparent efforts to keep it closed as an elementary school. Many family members went there.

There are no quality day care facilities in the GP area.

We are in desperate need of early childhood care!!

Preschool / Kindergarten / Grade 1-2 Summer school site. Latch key

School is needed

Comments

Elementary: Our #1 choice since Trombly was designed / built as an elementary school. Since GPPSS closed it, there is probably little chance though... Mixed: would the building stay and would it fit in the neighborhood? Early: Tried before but depends on the number of children to be able to utilize the whole building. Trade: Interesting concept and there is need. Classic: This would be good as a separate speciality school within the GPPSS system. SINGLE: involves demolition of the beautiful building and questions how the housing would fit in the neighborhood. THESE options obviously depend on how they are defined along with the details. It would be best to keep it as a school somehow. THANK you for the survey and the opportunity to be able to voice our opinion. GPP Resident.

Total waste of a neighborhood asset. GPPSS and GPP would do well with transparency in planning for Trombly future.

The fact that this school was closed was irresponsible and reckless. If the GPP city council or school board ever propose tearing it down or turning it into low income housing, WE WILL MOVE IMMEDIATELY. Why has it taken this long for the park to do a survey? Also, if the no tax paying renters turn this into another stunt of "inequality", we are done.

MIXED: Senior Housing. REOPEN Trombly so that 5th graders are not in middle schools. If not, redistribute to equalize the student. Defer is overcrowded and Maire isn't. If this isn't a possibility then the rest of the numbers follow.

Comments

We has a 1.5 yr old son and our street is filled with young children. I hope planning is considering the needs of GPP famlies for years to come, not just short sighted needs. Thank you for asking our preference!

Elementary: Only if it is a GPPSS elementary school. GPPSS: I don't know what this means. I want nothing other than a GPPSS use for the Trombly building. No housing. No Charter School. A great neighborhood park or GPSSS sports complex would be great. They should NEVER have closed the school.

I would like to see Trombly Elementary come back. I went there and growing up on the water side make it awesome to walk home. Basically a private school. Aslo, it is a gorgeous building that I would hate to se go away. If it cannot be used as an elementary, repurpose it. The playground space is great for the community as well. No to multi's.

As a lifetime resident of GPP, we feel it is imperative that Trombly Elementary reopens as the historic neighborhood school it once was. Residents and their children deserve the safty and convenience of having an elementary school within walking distance, without the danger and inconvenience of crossing Jefferson Ave to attend an overcrowded school. In addition, reopening Trombly as an elementary school will restore and enhance the property value of homes south of Jefferson. In the long held tradition of GP School excellence, Trombly needs to be reopened.

Comments

Thank you NO HOUSING.

Lets open Elementary again. Has anyone seen the young children in strollers?

explain classical . What grades? Elementary school with early child care would be nice.

Only GPPSS

Mixed is to vague. Young fives full day. Charter schools? #4 if yes. Smaller classroom sizes should be a priority. Better student to teacher ratio = better education I). More help for students, easier on teachers. It is one of the things parents ask when considering a school system. Of course everything that accompanys this must also fall in line. Ive also heard mention of an activities center for your. I like it. It has merit. This survey s vague and answering option specifically leads to much interpretation. so i have no ideas ho wyou wil interpret the results. people spend their careers writing surveys to ensure the answers are direct. Have one meaning and are measurable. Our school system is not in a good place. My grandchildren deserve a better opportunity and the tax payers deserve accountability by BOE. which seems to have been lacking. Just make it right. There was no date to be returned on this survey.

Comments

A school please
Back to basic GPPSS school
Condos. Id like to see the school building preserved and converted to condos.
One of the benefits of GP are our schools. I think closing Trombly was a mistake for several reasons. 1) The small class room sizes ensured more attention (classes were 2-25--now they are 30-40). The proximity to the neighborhood was safe and added value to the houses. Thre are a lot of elementary students in this year and significant growht of children who will be attending in the next few years. Was ther a census done to justify the closure? This building cannot become additional multi family houses or should not be opened as a trade center.
No charter school GPPSS.
