Nov. 29th 1943

Dear Robert,

you can't imagine how proud we were to get your letter written Nov. 11. - We received your cable gram, and wanted to send one in return, but every one advised to wait until we received a letter, but I see your A.P.O. has not been changed - So glad of your nice welcome and treatment. - They all say you will lose money in exchange until you get educated. - We will notify all the relatives, & I am sure you write "Iris" - We will try to get all to write often & tell the news. - We are all well. "Jimmy" has not received his call yet. He still thinks he will enter the Navy next month, still working at Campness. He will quit soon and take a little rest. -

We have had two letters from Mrs. Riley, also the Watch, she thinks a lot of you all - Louise made a trip to N.Y. last week, wish she could have phoned or saw Mrs. Riley while there, she can again maybe. -

I see several of the men each week from the mill and all ask about you -

We had a nice rain last week, not more than an inch but slow falling, with so some good, a small snow flurry, but did not last long.

I am sure Grandpa & Grandma have written. They are in Glen Rose for the winter, Box 413,

Glen Rose, Texas. - I forwarded Tom Williams letter and I am sure you will get it O.K. -

In case you do not, here is the address O-692593

Delmar Field, Box 830, Monroe La. -

But Walter is over but in the other direction I am sure you will see some one from Texas will close and mail this Lots of love Daddy -
