July 14, 1944

Dearest Robert,

The rain is falling. I was almost drowned on my way to work today. This ends the drought; so-called here in the east because it has not rained in 21 days. Some drought!

Leone is in Lincoln, Nebraska. She got the ride up with a friend in her car. Mary Derrick in in Chicago working in some hospital as a dietician. William is working this summer on a ranch in Wyoming. Pauline phoned me that Roy Lee Whitten is coming to Washington for a visit soon.

Last night I got a birth announcement from the Griffins. Phillip Allen Griffin was born on July 6th in the Rotan hospital and he weighed ten pounds. Some baby, but he was about a month late. Constance is doing fine. The Teagues really go in for boys, don't they? Eloise, Marjorie, Mrs. Huff, Marie, and Mrs. Fomby left July 4th for Ruodosa to spend their vacation. Eloise is having some kind of stomach trouble so she has not started to work as yet. She divides her time with staying in town and out on the farm. Little Faye Martin is home from California for the month, so Paul Junior must be coming home for a visit. Mother has not had definite word as yet. His eyes are keeping him from having his selection of his future in several cases. But Duna is happy and is a darling eager beaver in everything he does. There is never any fuss or gripe from him.

Phyllis Gay Milsap is in Lubbock married and has a baby boy. Billy's old girl (besides me!) from Eastland was in Hamlin visiting the McGoughs for awhile. Margaret Nobles was home from college at Tech and brought Hope Cade (another student there) and Mary Murrill Woodward from Brownwood with her. No more news has come from M. Y. Wilson. Harold Fletcher was in school in New York and he caught scarlet fever. Last reports were good. The Calhouns have moved to California. Of course Billy is busy, but Annie Mae stayed in Rotan with Bud.

Last Sunday Barbara was down from Philadelphia. So George took us canoeing on the Potomac. We had a picnic lunch and had lots of fun, swimming and canoeing and eating. I got a pretty good tan. This week-end I am going to Philadelphia to visit with Barbara and met Brud there.

Mignon Waggoner and Garland Preston are married. Winnie did not like this, but the Prestons did. It is a town joke how the Mays go at least once a month to visit with James Tate, no matter where he is. Ellis is home now. Soon he'll be going to Texas A&M for a period.

All of us are well and thinking of you. Let us know what to send in our next package. Birthday wishes to you and all our love.

Your sister,

*Louise*
