October 8, 1944

Dearest Louise,

Two of your July letters came in. I am avidly awaiting the packages and snapshots.

Thanks for the birthday greetings. I guess this is the appropriate time to wish you a Merry Christmas and a Happier New Year.

Little brother's letter of April 16 came through. I suppose I won't be able to bluff him any more now that he tops me four inches and about twenty pounds.

I am in fault for not mentioning this before, but I would like some modern books on mechanical, scientific, and Aerial experimentation or expeditions. I have read everything on north and south

pole exploration. A spherical trigonometry book would be welcome.

I don't want you to think I am too pessimistic. You act as you own mind dictates. I revere your judgement and love your letters.

I am sorry to hear about M.V.

Send my love to Mother, Dad & Diana - Love - Robert
