2020 NAILE GRAND CHAMPION PERCENTAGE SIMMENTAL BULL
2020-2021 PTP RING OF CHAMPIONS PERCENTAGE SHOW BULL OF THE YEAR
OWNED BY GATEWAY GENETICS & TRENNEPOHL FARMS

*Foreman was the high selling bull in the 2020 Gateway Genetics Bull Sale.
Congratulations to our partners at Trennepohl Farms*

Join The Tradition

Cattlemen,

Welcome and thank you for your interest in our 2021 bull sale. We are beyond excited about this year's offering as we feel that this set brings something for everyone. We have been pleased with how the bulls have developed through growth and maturity throughout the year. We would love for you to join us on March 7th in Pierce, NE for this year's sale.

We would like to thank all of our past customers for the continued support and interest in our program. Gateway Genetics is grateful for the feedback and success stories we have received through the years. With that, dealing with livestock is a tough business with unexcepted happening, so if there is any way we can help you at anytime throughout the year please let us know. Also, thank you to our guys at home putting in long hours and our crew that helps on the road and getting ready for sales, your dedication to our program doesn't go unnoticed and without you all none of this would be possible. The year 2020 no doubt may have been one of the toughest years we all have faced but one thing is for sure in the livestock industry, the cattlemen and women, friends, and family will always have one another's back.

Our team is passionate about improving our cow herd through sire selection and embryo transplant program. We feel that a uniform set of cattle not only focusing on EPD's or Phenotype but combining both will help not only to better your cow herd but selling your feeder cattle as well. Our goal is to provide well balanced, uniform cattle that can perform in the hills and in the feedlots.

We would like to invite you to join us for a meal and refreshments on sale day. We sincerely appreciate and enjoy spending time with you, and if you have any questions, please give us a call. We hope to see you on the 7th of March.

Sincerely,

The Gateway Team

THE BENES FAMILY

KEVIN, LAURA, BRENNNA, AND BRYLIE BENES

THE GANA FAMILY

CRAIG, LORI, KYLIE, KYSON, AND KADEN GANA

INNOVATION

AgMarketing, LLC

It is a great pleasure to welcome you to the annual bull sale at Gateway Genetics. These cattle are represented by some of the best people in the Midwest. The Benes and Gana families need no introduction to the seedstock business as they have always been tied to success in each and every avenue they have ventured down. We believe you will find this set of hard-working herd sires have the same reputation and quality as the folks that represent them.

The partners involved in Gateway Genetics have always been known for their relentless pursuit of perfection in the cattle business. Kevin and Craig have both been affiliated with numerous national champions, industry influencing donors, and leading sires of multiple breeds. They both share the passion for perfection and the title of being the best. Much thought was given to choosing both the SimGenetic and Angus sires that influence the program. The precision behind the matings is evident throughout the offering and we know that you will agree.

Over the past couple of months, we have experienced tremendous optimism and enthusiasm across the Nation. As we write this letter many of us have experienced some of the coldest temperatures we have ever felt in our lifetime. Subzero temperatures for days at a time can physically and mentally have an impact on our moral. It is truly amazing what these cattle are capable of enduring from one extreme to another. Rest assured, the end is in sight and spring is right around the corner! Agriculturists are a resilient breed, as we all continue to charge forward to ensure our great Nation has a reliable and safe source of protein.

So, with that, we cordially invite you to the breeding grounds of success for this annual event. Craig and Kevin are dedicated to providing the best product with the best customer service known in the business. Please feel free to reach out to Innovation Ag Marketing with any presale questions.

Enjoy the cattle,
Innovation Ag Marketing

Sale Location

Gateway Genetics Sale Facility
85218 550th Ave
Pierce, Nebraska 68767

DIRECTIONS TO SALE FACILITY

OMF EPIC E27 - SIRE OF LOT 1

OMF Epic E27 has taken the industry by storm and there is no denying the impact he has made on the business in a short amount of time. Epic is backed by the great B100 donor dam that is employed in the donor pen at Oak Meadow Farms and CK Cattle Company. Epic was the lead off bull in the 2018 NWSS Grand Champion Pen of Five Simmental Bulls for Oak Meadow Farms. Epic offers an elite outcross pedigree, superior phenotype, a flawless foot design, and an athletic build. Classic Reward is the logical place to begin the 2021 offering at Gateway Genetics. His dam is a top Chamberlain daughter that was our selection from a deep field of bred heifers in the Werning Cattle Company production sale a few years back. Classic Reward has the look, basic build, and flawless phenotype to command the attention of the most critical. Classic Reward is without a doubt one of the most unique Purebred Simmental bulls to sell this spring. . . join us on March 7, 2021 for our deepest offering to date! **Selling 2/3 Semen Interest and Full Possession**

HALF BLOOD STUDS

LOT 8

GPG Focus 135F is one of the resident herd sires here at Gateway Genetics. Focus was the second-high selling bull of the 2019 Hartman Cattle Company Bull Sale and a member of the 2019 NWSS Reserve Grand Champion Pen of Three Simmental bulls. H207 most closely resembles his sire, not only in terms of his stunning blaze face markings, but also in terms of his basic build, body shape, and genuine dimension. H207 is a tremendous individual that we believe will leave behind a sensational set of replacement females.

GPG FOCUS 135F - SIRE OF LOTS 8 - 11

LOT 9

FOCUS

Gateway Focus H213 is a dense, bold centered, long bodied herd sire prospect that is sound footed. He boasts a moderate 80-pound actual birth weight. Study his stoutness and shape from behind, a true beef bull.

Acclaim was the featured and high selling bull at the 2015 Jindra Angus Bull Sale in Nebraska. He offers calving ease with exceptional performance and maternal strength. Jindra Acclaim is an outcross to most Angus pedigrees, Acclaim is a free-moving, long-bodied, larger framed bull with elite growth. The dam of H005 is the famed Welytok Journey Erianna 6D62, who has already produced a \$30,000 daughter! The Erianna cow family has taken the industry by storm with its exceptional ability to transmit leading genomic profiles, world class EPD profiles and stunning appearance and quality. Welytok Journey Erianna 6D62 is a direct daughter of the 3B1 donor who sold for a \$70,000 valuation to TK Cattle Co. in Texas in the fall of 2017. 3B1 has raised in excess of \$250,000 in progeny and embryos to date, while being a member of the illustrious donor pen at Executive Ranches. Gateway Acclaim H005 is a true sale feature and truly one of the unique Angus bulls to sell during the spring 2021 bull sale season. H005 offers breed leading performance, phenotype, and \$ values that set him into a league of his own! **Selling 2/3 Semen Interest and Full Possession**

MOHNEN MESSENGER 1597
SIRE OF LOTS 35 - 40

Mohnen Messenger 1597 was our selection from the famed Mohnen Angus Farms program of South Dakota in 2018. He has exceeded our expectations in terms of siring cattle with a tremendous look of quality, structural correctness, and all the added features that set them apart in the pasture and the sale ring. H198 and H192 are well designed, smooth made, bold ribbed sons of Messenger that are both backed by second calf heifers that were bred in the Gateway program. If you're looking to add style and quality to your cow herd, look no further!

LOT 57

S A V PROPAGATOR 7311 - SIRE OF LOT 57 - 60

H187 and H212 are sired by our selection from the renowned Schaff Angus Valley program. SAV Propagator 7311 is a standout son of SAV Property 3121 that is from the SAV Primrose cow family. There is no question that this pair of bulls offer elite performance, phenotype, and structural longevity. H187 is backed by the influence of the great Traveler 004 on his maternal lineage, while H212 is from a Benoit Angus bred dam that is sired by Game Day. The "Gator" calves continue to impress us as they mature. Pay close attention to the strong aged son of SAV Propagator 7311, we truly believe you will appreciate the maturity pattern that this sire group offers. Power in the blood!

SULL HOTZ BARBARA 1510 - DAM OF LOT 59

G401 and G403 are both sired by SAV Propagator 7311, affectionately known as "Gator" at Gateway Genetics. G401 is as massive, bold ribbed, and three-dimensional as any bull within the entire offering. He is easy fleshing, dense bodied, deep sided, and thick ended. We love his quarter shape, stifle, and true shape. G401 is the definition of a beef bull! G403 is a smooth made, calving ease prospect that is sired by 7311. His moderate birth weight and body style suggest he should work well on well-managed virgin heifers.

RTZ BELLE F2067 - DAM OF LOT 101

Gateway Belle H121 is the first natural born daughter of RTZ Belle F2067, the 2019 American Royal ROV Grand Champion Angus Female in the Open Show. Belle is backed by the legendary Elba cow family that calls home to Silveiras Bros. of California. Belle F2067 is sired by the industry leading Colburn Primo 5153. H121 is much like her dam in terms of her look, style, balance, and shape. It is not very often that an open heifer calf of this caliber sells this time of year. Hang your hat on the cow family that will become a featured genetic line at Gateway Genetics moving forward!

LOT 102

MUSGRAVE 316 STUNNER - SIRE OF LOT 102

Gateway Miss Stunning H101 is a sound built, smooth made, bold bodied daughter of Musgrave 316 Stunner. Her dam was bred in the Benoit Angus program of Kansas and is sired by the legendary SAV Brilliance 5124. A tremendous February born female that has the credentials to build a program around.
