

BULL SALE

MARCH 8, 2020 | 1 PM | PIERCE, NEBRASKA

at the Gateway Genetics Sale Facility

Join the Tradition

Join The Tradition

MARCH 8, 2020

Cattlemen,

Welcome and thank you for your interest in our 2020 Bull Sale. We are confident that this year's offspring runs with excellent depth and power, both on pedigrees and EPD's. We believe this is the most uniform set that we have offered to date. We are excited about the growth and maturity of these bulls throughout the year. We would love to have you join us on March 8th in Pierce, NE.

We would like to thank all of our past customers for the continued support and interest in our program. Gateway Genetics is grateful for the feedback and success stories we have received through the years. We would like to also thank our crew that helped us on the road and getting ready for our sales. We appreciate the guys at home and everyone who lends a helping hand, putting in the long hours.

Our team is passionate about improving our cow herd through sire selection and our embryo transplant program. Our goal is to provide well balanced, uniform cattle that can perform in the hills and in the feedlots.

We would like to invite you to join us for a meal and refreshments on sale day. We sincerely appreciate spending time with you, and if you have any questions, please give us a call. We hope to see you on the 8th of March.

We sincerely thank you for your interest,

Gateway Genetics

INNOVATION

AgMarketing, LLC

It is a great pleasure to welcome you to the annual bull sale at Gateway Genetics. These cattle are represented by some of the best people in the Midwest. The Benes and Gana families need no introduction to the seedstock business as they have always been tied to success in each and every avenue they have ventured down. We believe you will find this set of hard working herdsires have the same reputation and quality as the folks that represent them.

The partners involved in Gateway Genetics have always been known for their relentless pursuit of perfection in the cattle business. Kevin and Craig have both been affiliated with numerous national champions, industry influencing donors, and leading sires of multiple breeds. They both share the passion for perfection and the title of being the best. I can attest that as you evaluate the offering, the thirst, desire, and passion of such quality is readily noticed. Much thought was given to choosing both the Simgenetic and Angus sires that influence the program. The precision behind the matings is evident throughout the offering and we know that you will agree.

Over the past couple of months, the industry has experienced a rebound with multiple surges in the marketplace across the board. The first two weeks of December yielded two of the largest, record setting harvest weeks recorded in our nation's history. Thus, followed an uptick in both the fat and feeder market through the first of the year and beyond. Sure, there has been some down trends but not like we witnessed after the two harvest plant shutdowns early last fall. The point is that experts tell us the low is past and things seem to be trending more positively than the past year. Bred heifer demand is increasingly up and with multiple older females headed to the market place, we are certain of the demand around the corner.

So, with that, we cordially invite you to the breeding grounds of success for this annual event. Craig and Kevin are dedicated to providing the best product with the best customer service known in the business. Please feel free to reach out to Innovation Ag Marketing with any presale questions.

Enjoy the cattle,

Innovation Ag Marketing

Sale Location

Gateway Genetics Sale Facility

85218 550th Ave
Pierce, Nebraska 68767

DIRECTIONS TO SALE FACILITY

From Norfolk, NE (15 miles from sale site): Take Hwy 81 North out of Norfolk. Take Hwy 13 West into Hadar. Continue on Hwy 13 into Pierce. Turn left on 1st Street and continue 1 mile.

From Yankton, SD (50 miles from sale site): Take Hwy 81 South to Hwy 98. Take Hwy 98 West into Pierce. Continue West until you come to a stop sign (Hwy 13). Turn South onto Hwy 13. (Hwy 13 will curve to the East). Continue three blocks. Turn Right on 1st Street and continue 1 mile.

GUARANTEE

All bulls are guaranteed for the first breeding season following the sale. If problems occur during that season contact us and arrangements will be made for replacement. Normal care and adequate nutrition need to be provided.

TERMS & CONDITIONS

All animals will be sold in accordance with the suggested guidelines of the American Simmental Association, American Angus Association, Red Angus Association of America and American International Charolais Association. For updated EPDs, genetic status, plus the current breed guidelines and conditions go to these association websites.

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available sale day.

UPDATES AND SALE ORDER

Additional information and sale order can be found at the InnovationAgMarketing.com website and on gateway-genetics.com.

ANNOUNCEMENTS

A supplement sheet will be available sale day with updated information, corrections and additional information. This sheet and any announcement made sale day and from the auction block during the sale take precedence over printed material associated with this sale.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

A long-standing tradition of champions and proven producers line the pedigree of the powerful lead off bull of the 2020 Gateway Genetics production sale, GTWY Foreman F241. A stout, good looking, well designed three-quarter blood stud that is backed by GTO Miss Selina 361C, a past Supreme Champion at the Nebraska State Fair Open show and sired by the two-time National Western Stock Show Grand Champion Purebred Simmental, SC Pay The Price C11. He offers a pedigree that is unmatched in quality to say the very least. Foreman is a strong aged SimAngus bull that was the 2019 Nebraska State Fair Supreme Champion, just like his sire and his dam. Foreman was also the 2019 American Royal Reserve Grand Champion Percentage Simmental bull. His build, look, design, and presence is simply hard to create, and we believe that his impact will be seen for years to come. Tie hard to a proven pedigree that offers the phenotype and genetic quality necessary to move any program in a forward direction!

Gateway Price G069 is a stout made, well-balanced son of the iconic donor dam within the Simmental breed, AJE Gabby R7. Gabby is a leading donor dam and foundation female in the Hilbrands Cattle Company program at Clara City, MN with over 100 registered progeny to her name. This Purebred herd sire prospect is sure to sire cattle with added look, shape, and generating potential.

AJE GABBY R7 - DAM OF LOT 4

Gateway Price G043 is a good looking baldy SimAngus three-quarter blood that is backed by a female we purchased from the famed Werning Cattle Company program in South Dakota. A stout made, big bodied, good looking female with added substance and dimension backs this stud. Thick, powerful, deep, and long bodied with a look of quality that simply cannot be denied!

JMG Voyager 4242D was our selection from the Goeken Cattle Company program bull sale a few years back. His look, shape, substance, and performance was what we were after. This combined with his pedigree made him a logical option to add to the herd sire battery at Gateway Genetics. We partnered with our good friend Cory Rains of Dorchester, Nebraska and found great success campaigning Voyager throughout his time on the road. G125 is backed by a productive, big bodied, easy keeping High Regard daughter. His shape, look, foot design, and presence is simply impeccable. This Purebred herd bull prospect is one to seriously consider if you retain females in herd due to his durability, fleshing ability, and the udder quality that backs his pedigree. G125 is a true sale feature!

FE

SFG Santa Fe D652 was our selection from the astute Sunflower Genetics Program in Kansas. The Gleason family has such an outstanding reputation for their production of fundamentally sound cattle in terms of feed, fertility, and udder quality, those facts alone made us even more eager to make the investment. This stud's dam is sired by the powerful, big footed past Denver Champion HC Power Drive and from the famed Ebonys Charm R29 donor dam that has over 100 results to her name on her cow card. Santa Fe is a standout for combining low birth weight with growth and would be the full brother to CCR Wide Range that sired the Multi Champion female for the Steenhoek family a couple of years ago. We believe that D652 is awesome in his kind and his genetic and heritage only enhances his value to our program. Confidence in you liking these cattle is never questioned.

SAV Propagator 7311 was our selection from the SAV sale in 2018 and has proven to be one of the best herd sire investments we have ever made. "Gator" is the sire of this stout made half-blood that traces to the Upgrade x Gabby R7 influence of E029. E029 is a full sister to the famed Miss Gracie Y7 matriarch. Generations of proven, predictable, and time-tested genetics are found here!

Profit is the \$400,000 stud that topped the Hartman Cattle Company sale and has evolved as one of the premier Simmental sires in the breed with as much influence as any. Here is an own son of the great Gracie Y7. A stout made, wide based, thick ended Purebred that is sure to add genetic impact to any program.

LOT 24

KR Outfit was our selection from the Krebs Ranch program of Western Nebraska, one of the premier Angus operations in North America that truly embodies real-world performance, shape, and length. The added quality, look, and presence that cattle carrying the KR prefix offer is second to none. G019 is an unbelievably stout, big boned, stout topped, shapely Angus bull. The dam of this bull is E&B Lady Plus 584, a top producing Angus female with tremendous udder quality. G113 is a smooth made, well balanced stud that is backed by a Styles Upgrade J59 daughter. The Outfit influence is sure to leave behind a set of sensational daughters and heavy weaning steer calves with value added profits. Pay attention to the shape, dimension, and power that these bulls possess! **Offering 2/3 Semen Interest and Full Possession in Lot 24.**

KG Solution 0018 is a past high seller of the KG Ranch production sale and is influenced by the likes of In Focus and Onward. He continues to be the go to bull for commercial cattlemen that desire low birth weight cattle with genetic vigor and growth, especially for those that prefer to sell at weaning. His contribution to the Gateway program is taken in the exact same stride as we strive to provide you, our loyal customers, with what the industry demands.

HERE'S YOUR SOLUTION

KG Solution 0018 is represented strongly within the Angus division and we believe is what these genetics are capable of producing. Not only are we loaded with a stout set of yearling Solution sons for your appraisal, but the strong aged 18-month-old Angus bulls by KG Solution are top tier quality to say the least. A stout and powerful set of strong aged bulls that can cover larger numbers of cows and maintain flesh. The Solution sons represented in the older bulls are a tremendous representation of the quality, structural integrity, and foot quality that this sire group is so well-respected for.

The famed Herbster selection from SAV at a total valuation of \$950,000, SAV Sensation was the high-selling lot of the 2016 Schaff Angus Valley Sale. He is a full brother to the \$235,000 SAV Seedstock. His mother, SAV Blackcap May 4136, is the No.1 income producing cow in SAV program history. She has generated over \$4,000,000 in progeny sales to date. Why wouldn't we want to utilize a sire with this kind of resume' to make bulls for our customers to invest in. They are the kind that we pride ourselves with.

E&B Confederate 507 is a past high seller of the Benoit production sale and was the selection of Conley and Penner. He's proven himself to be a calving ease sire with cattle that weigh heavy to the weaning pen. His sire is more than the buzz word of the breed as he continues to sire those that are desired by many in the land. His dam is of the productive influence of the legendary Summitcrest Complete and the proven 1023. The Benoit program in Kansas has a multi-decade reputation for production / performance focused Angus seedstock with a balanced look and longevity stacked in their favor, hence our decision to utilize this to our advantage to provide you with an advantage edged product.

LD Emblazon 999 is influenced with two shots of the great 6807. 6807 gets plenty of flak from the Angus purist population, but we are on board with each and every positive aspect the pathfinder sire is capable of influencing. It's no secret the impact that the great Emblazon 854E has had on the entire beef industry. Those in other breeds, specifically the Simmental breed, were willing to look over the fence and use 854E to enhance body and fleshing ability. 999 has sired and continues to sire progeny with proven performance and his daughters in production, replicate everything good with the heritage line. We embrace this sire group wholeheartedly and look forward to what's to come.

Pay Raise offers breed leading payweight performance with outstanding phenotype. He charts top 5% growth with strong \$Weaning, \$Feedlot and \$Beef index values. His dam is attractive and highly productive with a great udder, with tremendous maternal pedigree stacking Hoover Dam and Traveler 8180 on top of a deep Rollin Rock base. Pay Raise 4886 exhibits a powerful phenotype with added capacity and muscle mass in a super sound and super attractive package. G040 is a maternal brother to arguably one of the most popular Angus bull in Denver on "The Hill" and in "The Yards". Follow Me is owned by JS Simmentals and Minnaert Show Cattle, he has taken the breed by storm. Here is the chance to own a maternal brother and put him to work in your program!

Mohnen Messenger 1597 was our pick of the Mohnen Angus offering in 2018. Unbelievable phenotype, combined with heifer bull capabilities in a high performing, real-world package. Messenger is sired by SAC Messenger, the Silveiras Conversion 8064 son. We admire his length, stretch, design, and surefire heifer safe capabilities. Here is a pair of sound footed, long bodied, big topped, well-made Angus bulls that are backed by tremendous young females within our program.

Without a doubt one of the biggest numbered, highest dollar value individuals within the entire 2020 offering. 259 is sired by Byergo Black Magic 3348 and backed by an exciting Deer Valley bred dam. Black Magic is the breed's dominant number 1 Beef value sire with breed leading carcass, growth and maternal figures. He combines one of the most impressive numeric combinations we have ever seen! 259 is a long sided, thick made bull, with exceptional foot quality, ruggedness, and masculinity. Use 259 to improve growth, pay weight, carcass merit, and maternal function all in one!

Soo Line Motive 9016 will forever remain one of the most influential Angus sires in North America. G076 is a direct son of this maternal legend that is backed by the influence of SAV Sensation 5615 and from the Limestone Lady U1105 matriarch. Here is one of the great female makes of the entire offering to add body, mass, shape, and fleshing ability into your program while improving udder quality.

SOO LINE MOTIVE 9016 - SIRE OF LOT 62

Ellingson Identity 9104 offers proven calving ease capabilities. He will add rib, capacity, shape, and design. The progeny from Identity offer tremendous Carcass EPD's to accompany the real-world performance and growth. F490 is a strong aged bull that pressed down the scales at weaning time with nearly 800 pounds of weaning weight performance. A true combination bull that is ready for heavy service.

OCR MS. Xplorer E164PLD, more commonly and affectionately known as "Sugar" was successfully campaigned by Mason Walker of Arkansas. She was the Grand Champion Charolais female at the Nebraska State Fair and Reserve Grand Champion Charolais Female at the American Royal. An outcross pedigree, with added length, stretch, and frame size. Her design, maternal presence, and body capacity is what sets her apart in a league of her own. Here is a rugged, big topped, thick made Composite Charolais stud that will excel in club calf production or sire a set of heavy weaning steer calves with carcass value. Regardless of how you use this stud, rest assured that he is backed by a true power cow!
