

Angela M. Spence

Vice President, Executive Operations Liaison & Consultant
Healthcare Promoter | Armed Forces Disabled Veteran

Salutations, I am affectionately known as Ms. Anjiii. I am a Massachusetts native and a distinguished Armed Forces disabled veteran who honorably served over 25 years in the United States Army as an Emergency Medical Technician. My military tenure reflects a steadfast commitment to excellence, resilience, and compassionate care—principles that continue to guide my professional and community endeavors.

Following retirement from military service, Ms. Spence dedicated herself to advancing education, empowerment, and community impact. I previously served as a Residential Hall Coordinator at the University of Texas at Austin, where I mentored and supported students and supported their personal development, fostering confidence, accountability, and purpose-driven leadership.

I am a certified American Heart Association (AHA) instructor in CPR, AED, and First Aid, delivering critical lifesaving training to individuals and communities, including specialized instruction for pet emergency care. My commitment to animal welfare is demonstrated through my advocacy to establish Pawz n Clawz Organization in 2008, which promotes Pet CPR and First Aid education and encourages responsible, compassionate animal stewardship.

My work is grounded in faith and guided by a strong commitment to servant leadership. As an Honorable Kentucky Colonel, I regard this distinction as both a privilege and a responsibility to serve with integrity across diverse professional roles. My professional portfolio includes serving as a Certified Public Notary in Kentucky and Texas, as well as a Certified Medical Administrative Assistant (CMAA). These credentials support my work as an Independent Wellness Developer and Consultant, where I integrate holistic health principles with practical, community-focused solutions.

I served on the Executive Board of the Shiloh City of Peace Foundation, advancing initiatives that strengthen communities through education, outreach, and social support. Since 2019, she has held the role of Leader and Executive Director of Operations at GSK, overseeing strategic planning, operations, and resident services. As a certified Targeted Case Manager (TCM), Adult Peer Support Specialist (APSS), and Community Support Associate (CSA), I cherish delivering person-centered strategies that drive stability and sustainable outcomes.

As a dedicated lifelong learner, I am actively advancing my education in Psychology, Human Resource Management, Paralegal Studies, and Public Health. I also intend to pursue a Master of Science in Education with a concentration in Allied Health Teaching and Leadership. My long-term objective is to serve as a Health Promoter, contributing to holistic community wellness through education, policy development, and service initiatives.

My guiding principle, “Educate the People,” reflects my unwavering dedication to knowledge-sharing, empowerment, and meaningful community transformation.

“LAND, BREAD, HOUSING, EDUCATION, JUSTICE, AND PEACE” – “BREAD AND WATER” MINISTRY
