“Bread & Water” Ministry

At Shiloh City of Peace Foundation, Inc. 501(c)(3) organization, the meaning of life is deeply rooted in compassion, service, and empowerment. Established in 2006 by individuals dedicated to assisting people in times of need, we believe life is most meaningful when we contribute to the well-being of others. Our holistic mission is to help people achieve a better quality of life through access to essential human needs—land, bread, housing, education, clothing, justice, and peace—so they can live their fullest, most dignified lives.

For us, life’s meaning lies in supporting people along their journeys to sustainability and restoration. We specialize in providing a continuum of care, including restorative living and sustainability practices, therapeutic and spiritual wellness support, and transferable trainings, like American Heart Association BLS and ACLS certifications, that empower people with vital skills for themselves and their communities. These pillars of service create a supportive environment where people can rebuild, grow, and thrive.

Our experienced team is dedicated to providing hands-on, tailored solutions that address each person’s unique circumstances and aspirations. By meeting people where they are and honoring their dignity, we help them move toward a future where their basic needs are met and their aspirations are celebrated.
