COACHING – ACADEMIC ASSISTANCE FOR HIGH SCHOOL STUDENTS

We recognize that thinking about the next steps after high school can be an exciting yet overwhelming experience. We are here to help! Whether you need one session or a series of sessions, let us help you simplify your transition from high school to post-secondary years, and identify the potential opportunities and roads ahead of you. ATB Evaluation Services can help you by teaching you to evaluate your experiences, current resources, personal needs, and setting up a roadmap. We apply several frameworks, such as the Hedgehog Model from Jim Collins (see figure below) to guide you. In addition, we can assist you with technical aspects of your application package such as drafting a 'statement of purpose' and preparing for college interviews. Below are some of our services. For more information, please reach out and one of our associates will assist you.
