In this period we will call on every one of you to help in the way you can to make our view be heard and to manifest the strength of our resolve:

Saturday 19 October: The March

Boris Johnson's suspended Parliament!

The suspension of Parliament the way that Boris has done it is what normally only happens in Dictatorships. You are afraid of loosing so you rid yourself of that possibility. Boris action is a fundamental attack on the democracy. If the people's representatives are not in your favour - find yourself a new ones. So maybe it is a battle-cry for a new General Election? Brace yourself for new actions.
