

Many thanks to Mike and Milo Marine!

My sailing yacht was victim to several previous owners all having a go at DIY maintenance throughout the years. Mike took out the engine, replaced the sail drive and auxiliary parts, tidying all the wiring and mechanics up as he went along. Also doing a fantastic anti foul and polish job to the hull.

Nothing is too much trouble for Mike and his team, they are hard workers that put the hours in, conscientious, punctual, very fair and go that extra mile. He always kept me in the loop with professional advise along the way. I was and felt in safe hands.

Many thanks again, Richard 'Shine' that now shines ✨😊
