

# Get Rid Of Poverty

## **Welfare:**

The first thing you do is accept welfare and then ask for more when you CAN SAY IT. That's the verbal way to let them know each time it's accepted by people it is not enough. It's necessary to let the government know it's in demand to have enough money to live on. They listen more to potholes in the road being fixed than money to keep your car on the road.

You can ask the Ontario Premier to increase all Social Assistance to an indexed living wage at:

## **Email:**

premier@ontario.ca

## **Mail:**

Premier Of Ontario  
Leglative Building, Queen's Park, Toronto, ON,  
M7A 1A1

## **Petition:**

You can petition at this website and add your name and email address to any of the petitions or make your own petition there: [www.change.org](http://www.change.org)  
Below you'll find a POST CARD you can print out and hand to the poor if you'd like. Tell them to complain more to get their way payed in disgrace. Social Services must have to support them or you will. Which would you prefer? Are you going to

ignore Social Services while the rich lose money over time and the average income of all goes down for the masses of people that don't yet have A INDEXED MINIMUM WAGE and complain the poor are taking your money when you are letting an arbitrary setter of MINIMUM go by without consideration of the economy's income? If you value your money ask the Ontario Government to raise the minimum wage to one that is MINIMUM WAGE INDEXED TO REALITY. Not a personally chosen person.

## Get Rid Of Poverty Premier
