

About ChiroConnexion

ChiroConnexion is a referral network that helps to achieve the integration of Chirocare and Medical Treatment by providing concierge medicine, chiropractic care, and pain management to its patients in Metro Atlanta & surrounding areas via telemedicine.

Secure, Easy & Convenient

Prior to their Virtual Visit, Clients will complete an intake form which allows us to gather important patient information for each telehealth visit.

PROVIDING QUALITY
& COMPREHENSIVE
PATIENT-CENTERED
CARE

1-678-274-9398

We have Chiropractors and Medical Doctors working together in cases where medical care is necessary as an adjunct to chiropractic care. Utilizing these different systems puts the patient right where they should be, at the center of care.

Anywhere.

Dr. Fitz Harper, MD

As we navigate changes to our everyday lives as a result of COVID-19, know that your health remains our priority. We offer telemedicine options as a social distancing measure to decrease the risk of potential exposure. We want you to be able to receive care from the comfort and safety of your own home anywhere in the Metro Atlanta area.

Through a PC-enabled webcam or smartphone, the team at ChiroConnexion consults and establishes trusting relationships with their patients and helps them schedule an appointment to receive personalized treatment that takes into account a complete picture of their health.

**100% FREE CONSULTATION.

CONCIERGE MEDICINE

Because certain medical issues really can't wait that long and need to be addressed quickly, ChiroConnexion offers concierge medicine by connecting patients with a provider that can provide the care they need right away.

PERSONALIZED CARE

Telehealth, or a "virtual visit," is a great option for patients who aren't able to come in to the office. Through our simple, secure telehealth application, you can video chat with Dr. Kulmacz and Dr. Harper from the comfort of your own home.

Depending on your individual needs and concerns, they can answer questions, provide consultations, offer physical therapy guidance, review exercises, and work with you on stress-management techniques.
