

U.S. Department
of Veterans Affairs

VA Dental Insurance Program (VADIP)

offers discounted private dental
insurance for

Veterans and family members

VADIP is dental insurance approved by VA and offered through Delta Dental and MetLife. Through the program, members can purchase reduced cost dental insurance coverage that includes:

- Diagnostic services
- Preventative care like cleanings, exams, and X-rays
- Root canals and other services to manage oral health problems and restore functions
- Endodontic and restorative services, surgical services, and emergency services

A healthy mouth is essential for everyday activities like eating, speaking, and smiling. Good oral health also plays a key role in self-confidence, school success, and attendance at both work and school. Unfortunately, oral diseases such as cavities, gum disease, and oral cancer affect millions of Americans, often leading to pain and long-term complications.

Additionally, your dependents could be eligible if they are enrolled in the VA (CHAMPVA) program.

Here's what to know:

- VADIP provides coverage throughout the United States and its territories, including Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.
- Insurance carriers may offer separate coverage options for dependents who aren't CHAMPVA beneficiaries.

Did you know you can enroll in VADIP at any time throughout the year?

Delta and MetLife both offer comprehensive dental benefits.
Enroll online or by phone in minutes.

The Benefits

Dental problems can be unpredictable and expensive. Enrolling in a VADIP plan can significantly lower your costs for covered dental care. Plus, preventative-care benefits such as exams, cleanings and X-rays can avoid problems down the road.

Two Great Options

Delta Dental and MetLife offer VADIP dental insurance plans. No matter which way you go, you'll find an affordable option to protect both your smile and wallet.
