Snow Day: I

Wild, Wild Snowstorm

Have you ever seen a blizzard? Fill in the blanks in this article to find out about these wild storms.

A blizzard is a wild snowstorm. It snows for hours and hours. Sometimes, it snows for days!

The air is _____ cold. Strong _____ of wind make trees sway and cause high _____. These mounds of snow can bury cars. It might take days, even weeks to _____ the cars.

Word List

freezing
gusts
drifts
swirling
uncover

Whiteouts are caused by _____ snow. That's when the sky and ground look like a big white sheet! It's easy to get lost in a whiteout.

Protect yourself and your pets during a blizzard. Stay inside until the snow stops. Then go out and have some fun!

Think About It!

What's the difference between a regular snowstorm and a blizzard?

Grade 4 passage for Decoding Comprehension

Plural Nouns

Name _____

Date _____

Singular noun ending in:	Make plural by:
ch, sh, ss, x, zz	add -es
y	drop the y, add -ies
ends in f or fe	drop the f, add -ves

Write the plural form of each noun.

- 1. lady _____
- 3. baby _____
- 5. party _____
- 7. grocery _____
- 9. story _____

- 11. class _____
- 13. lunch _____
- 15. dish _____
- 17. bush _____
- 19. fox _____

- 21. half _____
- 23. leaf _____
- 25. calf _____
- 27. thief _____

- 2. country _____
- 4. city _____
- 6. sky _____
- 8. secretary _____
- 10. library _____

- 12. box _____
- 14. glass _____
- 16. buzz _____
- 18. branch _____
- 20. dress _____

- 22. wife _____
- 24. loaf _____
- 26. life _____
- 28. knife _____

Name _____

Snow Day #1

Date _____

Complete the problems, showing your work.

$$\begin{array}{r} 1 \quad 143 \\ +425 \\ \hline \end{array}$$

$$\begin{array}{r} 2 \quad 370 \\ +519 \\ \hline \end{array}$$

$$\begin{array}{r} 3 \quad 561 \\ +236 \\ \hline \end{array}$$

$$\begin{array}{r} 4 \quad 258 \\ +614 \\ \hline \end{array}$$

$$\begin{array}{r} 5 \quad 449 \\ +461 \\ \hline \end{array}$$

$$\begin{array}{r} 6 \quad 502 \\ +339 \\ \hline \end{array}$$

$$\begin{array}{r} 7 \quad 974 \\ -452 \\ \hline \end{array}$$

$$\begin{array}{r} 8 \quad 795 \\ -673 \\ \hline \end{array}$$

$$\begin{array}{r} 9 \quad 683 \\ -441 \\ \hline \end{array}$$

$$\begin{array}{r} 10 \quad 456 \\ -318 \\ \hline \end{array}$$

$$\begin{array}{r} 11 \quad 371 \\ -184 \\ \hline \end{array}$$

$$\begin{array}{r} 12 \quad 500 \\ -268 \\ \hline \end{array}$$

Answer the word problems, showing your work.

- 13 Nancy picked 18 apples and Sandy picked 48 apples. How many apples were picked in all?

- 14 Jessica had 32 nickels in her piggy bank. She spent 14 of her nickels. How many nickels does she have left?

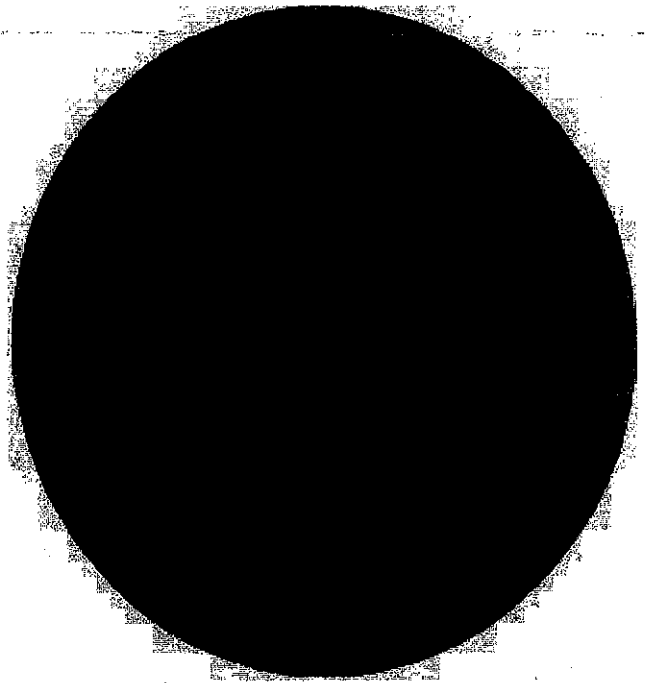

- 15 Tim has 125 books. Mary has 102 books. How many books do they have together?

Name: _____

Day 1

Mercury

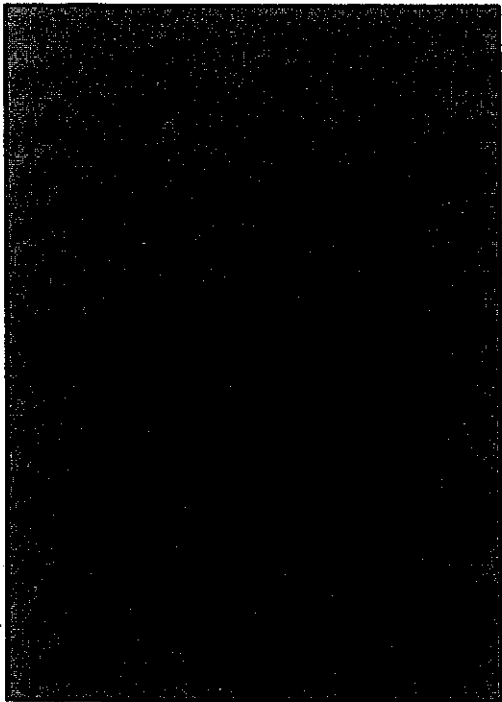

by Cynthia Sherwood

Mercury is the planet nearest the sun. It's so close that if you were standing on Mercury, the sun would appear two and a half times bigger than what it looks like from here on Earth.

Even the best sunscreen wouldn't be enough on Mercury. The sun's rays are about seven times stronger than on Earth. Mercury is dry, very hot, and practically airless. Mercury is also the smallest planet in our solar system. Because it's often blocked by the glare of the sun, Mercury can be hard to see without a telescope.

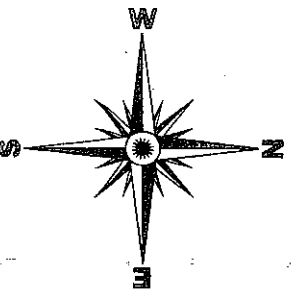

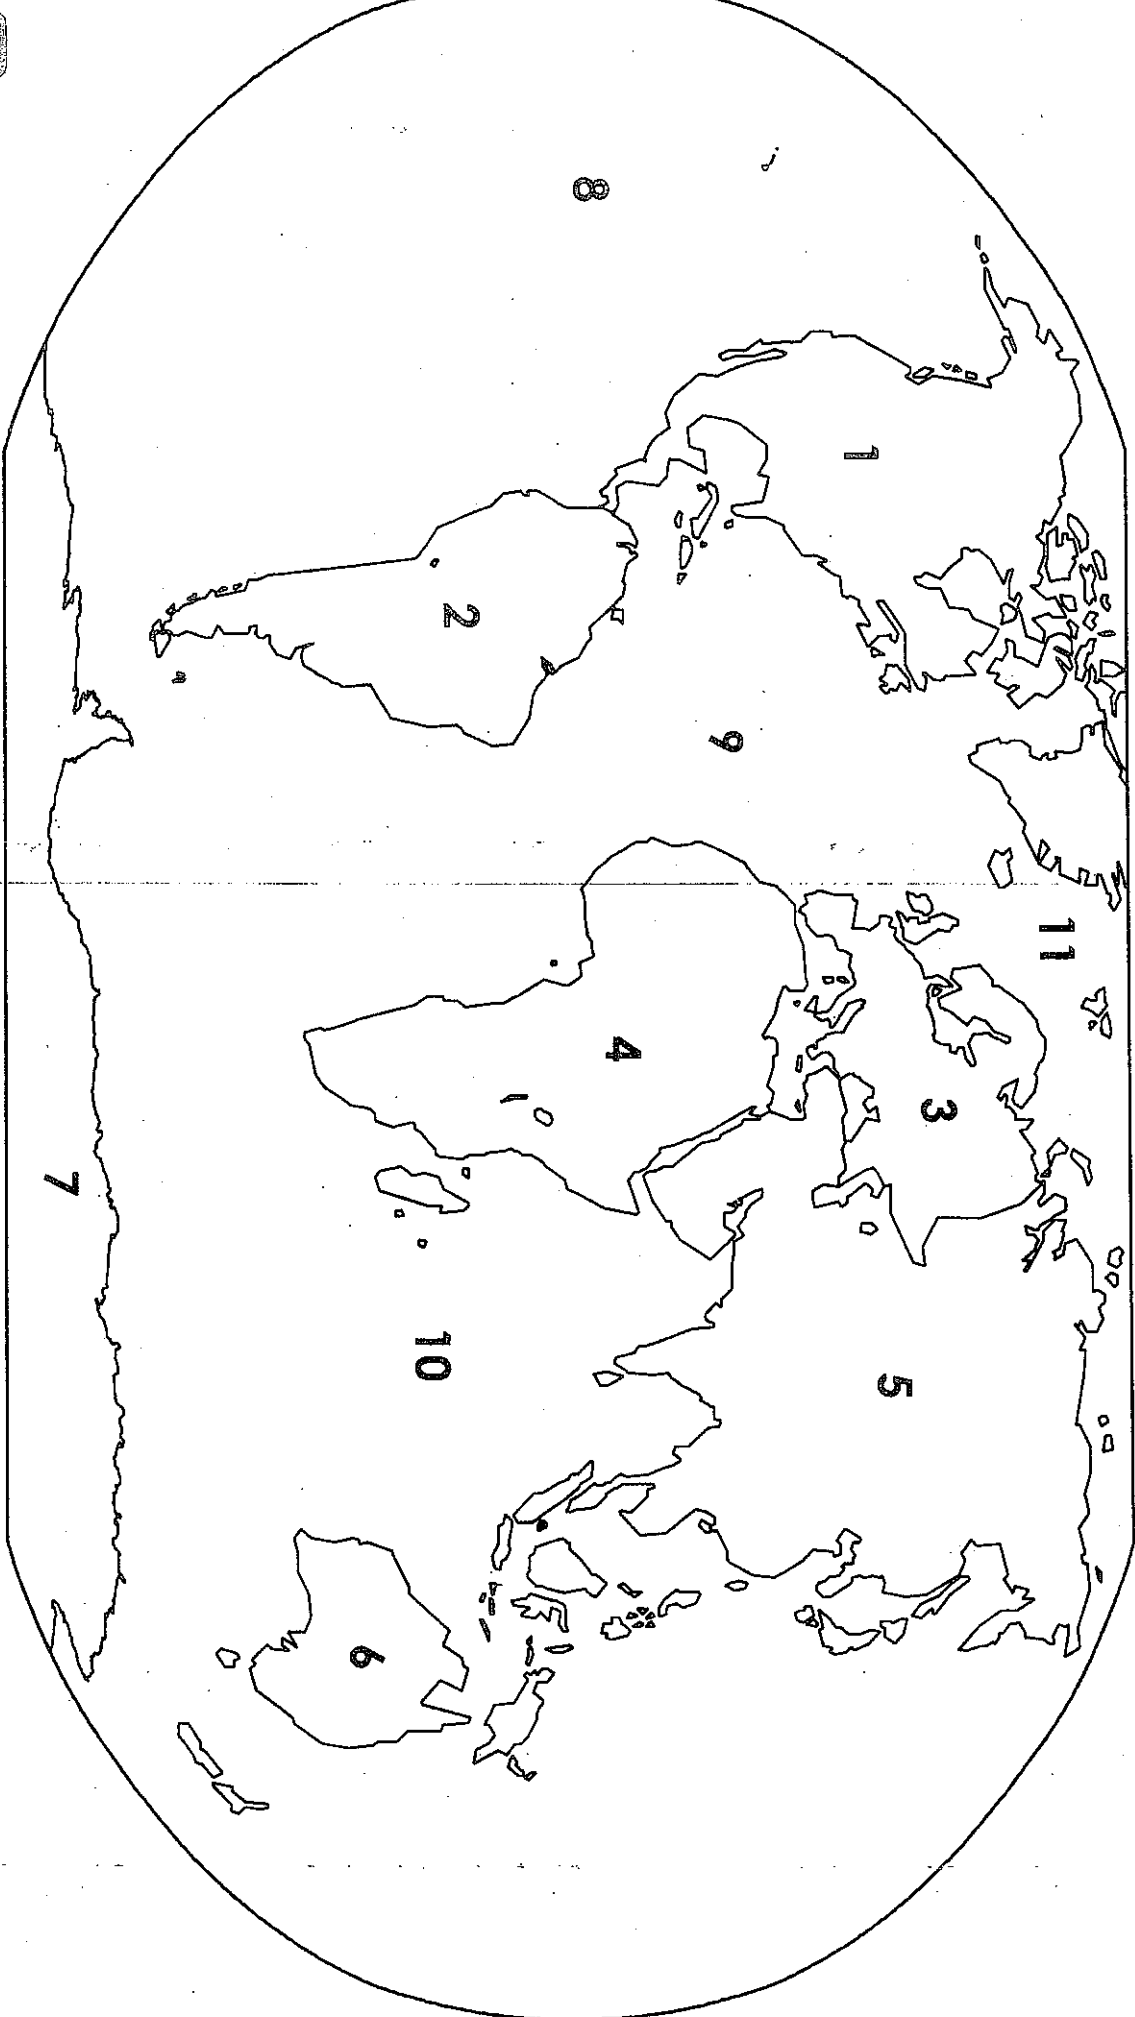

Mercury is named after a Roman god who was a messenger known for his speed. As a planet, Mercury moves around the sun faster than any other. It revolves around the sun about once every 88 Earth days.

Mercury is made up of rock with iron at its core. Its surface looks a lot like our moon, with many craters. Radar images from Earth show that craters at Mercury's north and south poles may contain frozen water, or ice. Scientists couldn't believe it at first. Parts of Mercury reach 800 degrees Fahrenheit (427 degrees Celsius), so they definitely didn't expect to find ice! But it turns out the poles of Mercury are always in the shade of the sun, so they remain extremely cold.

By the way, you'd never be able to enjoy a blue sky on Mercury. Because there's no atmosphere, the sky always appears black. You might even see stars—during the daytime!

Continents and Oceans of the World

Name: _____

Continents and Oceans

Write down the name of the ocean or continent that matches each number on the world map.

Continents

- 1. _____
- 2. _____
- 3. _____
- 4. _____
- 5. _____
- 6. _____
- 7. _____

Oceans

- 8. _____
- 9. _____
- 10. _____
- 11. _____
