

Art / 8th Grade/7th Grade

*Assignments and notifications; additional reading, and art videos will be posted on the Art Website with impending due dates

(<https://pencildancer66.wixsite.com/author-site>)

- All 8th grade classes will be completing a PowerPoint on the careers that can be found with a degree in art.
- Examples: Architect, museum curator, interior designer, art teacher, graphic designer, photographer, art director, set director, etc.
- Power point must have at least 10 slides with images and description of job duties, education needed, potential salary, potential job market
- Power Point must be visual pleasing and organized.
- Due to the fact we are out of school; Power point must be accompanied with a written report due to the fact that the mission of a Power Point is to be a visual aid to the presenter and, therefore, not to wordy.

Art/ 5th/6th/4th

- All students are to complete a one-point, two-point, bird's eye point, and forced perspective drawing.
- These are to be pencil drawing complete with shading and value.
- YouTube tutorials are available to show demonstrations of these drawing techniques
- For forced perspective, those students may take a photograph with their cell phones and send a photo to My Outlook. slkines@k12.wv.us (If you do not have a phone you may draw an image)

Art/ 3rd/2nd/1st

- Students are to watch episodes of their favorite cartoon shows and draw images and scenes from them paying attention to the way they are drawn and the colors that are used. *Pete the Cat* would be very good, but any would be acceptable. Students are to try and use the different color schemes (complementary, analogous, monochromatic) for attached coloring sheets.
