East Gate to Open

By MICHAEL ROSENZWEIG, Editor-in-Chief

The long-awaited and delayed East Entry/Exit Gate on Military Trail is due to open for business in early November, 2018. The new gate has two vehicle lanes for entry and one for exiting. It will expedite both resident entry and guest entry and may reduce the chances of having traffic backing up onto Military Trail. All the residents of CVE are eagerly anticipating the start of the rebuilding of both the West Gate and Main Gate next spring.

Welcome Broward Sheriff’s Office

By MICHAEL ROSENZWEIG, Editor-in-Chief

The long-awaited arrival of Broward Sheriff’s Road Patrol is finally here. This should come as a welcome relief to those residents who take regular daily walks to and from their condos to the Clubhouse and have to traverse Century Boulevard in their travels. On numerous occasions, I have witnessed speeds and vehicles not yielding the right-of-way to pedestrians and cyclists, even though walking or riding through striped crosswalks.

At the monthly Master Management Board of Directors meeting on October 18, City Commissioner Bernie Parness announced that the Sheriff’s Road Patrols will be giving out warnings to violators until December 1. After December 1, traffic infrac-
tions will result in warnings and costly tickets. Remember, a traffic ticket/moving violation is expensive and can affect your car insurance premiums. So, for your own peace of mind and for the welfare of your community, obey all posted speed limits in the Village; yield the right-of-way to pedestrians and cyclists and come to a full stop at all stop signs.

Sylvia Smaldone Names New CVE Reporter Board of Directors

All the nominees were then unanimously approved by the quorum of COOCVE Directors present. Michael Rosenzweig, Carol Carr, Susan Dove and Toni Ponto are all veteran volunteers who have tirelessly worked for the CVE Reporter for many years.

Thanksgiving Recipe

The holidays are the perfect time of year to get together with friends and family and remember why we are so thankful. Thanksgiving gives me the opportunity to make one of my favorite recipes, passed down to me from my mother that I have doctored up throughout the years of making this dish. I would like to share with you my famous Thanksgiving stuffing recipe. You will need the following ingredients:

1. Seasoned bread cubes (bag and half)
2. 1 can of low-sodium cream of mushroom soup
3. 1 can of low-sodium cream of broccoli soup
4. 2 tubes of sage sausage (or turkey sausage for a healthier option)
5. 1 white onion
6. 3-5 eggs
7. 1 stick of butter
8. Salt/pepper
9. Mushrooms
10. ½ cup of half and half

In one pan lightly brown the sausage over medium-high heat. In another pan heat one stick of butter, add chopped onion and mushrooms. Lightly season with salt and pepper. Cook until vegetables are tender-crisp. Add cream of mushroom and cream of broccoli soup to pan and bring to boil. Remove pan from heat, add stuffing, ¾ cup of half and half and mix lightly. Heat oven to 350°. Spoon stuffing mixture into casserole dish and bake uncovered for 30 minutes. I hope you enjoy it as much as I do!

I have a wonderful and happy holiday season.

Richard Rosenzweig reminded everyone that the clubhouse is still being renovated; parts of the first floor are now being worked on and the second floor is just about done and looks beautiful. The paving project is complete; the final striping is being done this week. The lighting project continues; there are about eight areas that are fully completed, and permits have been received for three others. The building presidents need to give up either a parking spot or grassy area to relocate the dumpsters. MM will pay to relocate them and have a pad placed, but an area needs to be designated and they need to receive cooperation from the building presidents. Umpirer: Michael stated that residents should report to MM if they have garbage containers that are breaking apart and leaking. Dan replied that this is only one in the Village and asked if a survey can be done. Dan responded that a survey was completed in the Village and due to lack of cooperation with the building presidents, none of the dumpsters were moved. A Message from the Editor

By MICHAEL ROSENZWEIG, Editor-in-Chief

Lady Justice Wearing Shades

The image of the toga-wearing blindfolded Lady Justice holding a set of scales balanced in one hand dates to ancient Egypt, Greece and Rome. She appears blindfolded to impartially measure the strength of a case: both support and opposition presented without regard to a defendant’s wealth, power or political status.

For those readers of the Reporter who viewed the United States Senate’s confirmation hearing on now Supreme Court Justice Brett Kavanaugh on September 27 who were perplexed by the lack of impartiality on both sides, you are not alone. Many Senators on the Democrat side stated from the outset that no matter who President Trump nominated for the open position, they would not vote to confirm. The same obstruction held true for most Senators on the Republican side, i.e., that no matter who President Trump nominated, they would vote to confirm.

Though this open hearing of the Senate Judiciary Committee was not supposed to be a trial, but rather a complex job interview for a prestigious lifetime appointment, it turned into a contentious battle fraught with slander, innuendo and accusations. Claims were made regarding new Justice Kavanaugh’s behavior at a high school house party involving drinking, partying and sexual assault. Those Senators on the Judiciary Committee who were opposed to Kavanaugh’s confirmation from the outset supported and believed the testimony of Dr. Christine Ford, while those Senators who were in favor of Kavanaugh’s confirmation were skeptical of her testimony and said it lacked supporting evidence. So, what would Lady Justice do in this case? It would be quite a test for her if she was really blindfolded. On one side of the scale is the testimony of Dr. Ford, whose recollection of the events of the house party 36 years ago was at times detailed and at other times sketchy. On the other side was the testimony of Brett Kavanaugh, who stated rather emphatically that he was not the person Dr. Ford was accusing of sexual assault at the party. A difficult decision for Lady Justice. In this case, Lady Justice traded her blindfold for a pair of sunglasses with one lens shaded blue and the other red. Et tu brute?
The Mayor’s Message

Century Village friends and neighbors, fall is finally here, and I hope you are as ready as I am to welcome some cooler temperatures. For those of you who spent the summer break away from Deerfield Beach, welcome back! The most essential item I would like to update you on is recycling. We have a new recycling program, and that means new rules. I am very excited that Century Village has taken this very seriously and has been getting the word out. For more on the rules of Deerfield Beach Recycling Version 2.0, please visit www.dbf.city/recycling. If you have any questions on recycling, you can also call the Department of Sustainable Management at 954.480.4454.
I want to remind you that the City now requires Vacation Rentals to be registered.

By BERNIE PARNES, District 3 Commissioner

Century Village friends and neighbors, fall is finally here, and I hope you are as ready as I am to welcome back all our friends returning to sunny South Florida for the winter. We are glad to have you back. November is here, and I am happy to report that the construction of the East Gate is now completed. The additional entry lane will speed up traffic on Military Trail and make entry more accessible for all of us. I want to thank Master Management for their hard work on this project.

Many of you have asked about the East Gate. Well, the East Gate is now completed, and the additional entry lane will speed up traffic on Military Trail. I want to thank Master Management for their hard work on this project.

Dying Our Part to End Food Insecurity

Thanksgiving is a time for family. A day celebrated with loved ones gathered around the dinner room table for the traditional holiday feast. Unfortunately, the same cannot be said for many families in Broward and around the country who are simply unable to put food on their tables for Thanksgiving. At the Broward Sheriff’s Office, we have made it a Thanksgiving tradition to ease the burden, bring some joy and provide some hope for those struggling during this holiday. No child should spend the holiday hungry and no parent should experience the pain of being unable to provide.
Each year, BSO distributes thousands of turkeys to families in need. I personally visit the families and the despair fades away as I hand out turkeys to families around the county. That’s what Thanksgiving is really all about. We couldn’t do this without the financial support of numerous partners, including the Broward Sheriff’s Advisory Council, which provides year-round support to public safety in Broward and to our community as a whole.
Sadly, food insecurity is not just a once-a-year event, but a daily stark reality for many Broward families. In fact, around a quarter million people struggle to get enough to eat. That includes nearly 80,000 children who go to bed hungry.
That is unacceptable. Ending food insecurity has been one of my biggest passions for many years. I remember visiting a Boys and Girls Club when I was first elected Sheriff and noticed the counselors feeding back-packs of the kids with food, so they would not go the full weekend without a decent meal. The food was the club’s way of helping these kids make it through the hard times. I was both moved and motivated by this gesture and made it my mission to create a large events. These events, paid for through the generosity of individuals, businesses and non-profits, are held throughout the year and around the county. These provide residents an opportunity to stock up on meats, produce, bread, dairy and frozen foods. Everyone is welcome to attend these free community events. We do this not because it’s the nice thing to do, but the right thing to do. It benefits us all. Helping to relieve the stresses of hopelessness, frustration and despair is part of the solution. Troubled individuals are far more likely to steer clear of crime when their basic needs for food, shelter and treatment are met. These proactive community policing policies strike at the heart of the problem before it spirals out of control.
During this Thanksgiving season, I ask that we remember those less fortunate than us and all do our part to help where we can. From the BSO family to yours: have a safe, healthy and happy holiday.
COOCVE President’s Report

By SYLVIA SMALDONE, President/COOCVE

Hello, Century Village East. I’m waiting for this hot weather to go away; had to drive to New York to get cool. I finally got a look at the new interior of the Clubhouse, “It is beautiful.” It looks twice the size with the tiled floor. Now you can see the chandelier, I didn’t know we had one. The entrance is a sight for sore eyes and a breath of fresh air. This room is something we can be very proud of. We need to thank the Recreation Committee for designing a work of art and for doing such a wonderful job. I am looking forward to seeing the entire Clubhouse when it is completed.

Recreation is also working on the upgrading of all the pools. Century Village unit owners must have patience; all the pools will be done in a timely matter. Unit owners can use any pool in CVE. If your pool is closed feel free to use another pool. You can always take the bus to the main Clubhouse pool and enjoy the music while you swim or just relax.

A new Board of Directors has been elected to the Reporter, they are: Carol Carr, Susan Dove, Patricia Bidol-Pavda, Michael Rosenzweig, Charlie Parness, Toni Ponte and Richard Rosenzweig. Enjoy Century Village East and remember you can always get breakfast or lunch at Cohen’s Bagel & Deli. Have a Happy Thanksgiving.
CVE Candidates Needed

Century Village East (CVE) needs elected leaders who engage with civility and make wise decisions that are sustainable and cost effective; leaders who appreciate the wonderful diversity of our residents; leaders who can bring our Community together.

This is a wonderful opportunity for anyone who owns a condo to step up and bring some new ideas and suggestions that are sustainable and cost-effective; leaders who can bring our Century Village Community together.

You can make a difference and help ensure that CVE continues to be a wonderful Retirement Community that has excellent entertainment and recreation set in an environment of woodland preserves and waterways.

CVE has 8,508 units that are grouped into 253 Associations which comprise the Condominium Owners Organization (COOCVE) that engages with Association Boards and their residents to work for us.

The Recreation Committee oversees the professional staff that is responsible for, and administers, the CVE Recreation Facilities (pools, courts, etc.) and the Clubhouse.

The Master Management Board oversees the professional staff responsible for providing Community Services such as the roadways and caring for our Community Facilities.

The 2019 CVE Election Committee is beginning the task of preparing for the Election that will be held on Tuesday, January 15, 2019. The Election Candidates’ Forum will take place on Tuesday, January 8, 2019.

An Information/Guidelines Sheet can be found on Page 14-A of this edition regarding Application and Resume Protocols. All we need now are candidates! Think about what you personally can contribute to the quality of CVE.

The following is a list of the Election Positions to be voted on in 2019:

- Recreation Committee has three (3) positions, each for a two-year term.
- Master Management has three (3) positions, each for a three-year term.

Candidate Application Forms appear on Pages 15-A of this edition. They contain instructions on what information is needed. Deadline for applications is no later than November 30, 2018 at 3 p.m.

If you have questions or comments, please contact the Election Committee Chair, Patricia Bidol-Padva, at 561-289-0802 or email pbidolpadva@aol.com or Co-Chair, Carol Carr, at 954-596-4492 or email cccarr2@gmail.com.

Bay Management Message

Bay Management Message

Dear Residents,

As season approaches I would like to thank you all for your support and understanding while the Clubhouse is undergoing construction and renovations. I promise you all that it will be worth the wait! I would also like to announce that at the time of print, the new Pickleball Court construction should be well underway! In my daily travels around the property many residents approach me about this project and I’m so excited to see it becoming a reality!

Some quick updates for the community:

- Season shows tickets are still available and are selling at a steady rate. If there is a show that you don’t want to miss, get your tickets now for the best seats still available. We still have plenty of Tony Orlando and Dudo Fisher matinee tickets available and a small amount of balcony seating left for the evening shows.
- Our holiday shows this year are Charles Dickens’ A Christmas Carol on December 9 and Christmas with Rockefeller on December 23. Tickets are still available for both shows and I suggest you get them soon before they sell out! Additionally, the Sugar Pops Orchestra returns for their Holiday Concert on December 5. Tickets for all shows are available online or at the Clubhouse Box Office.
- If you frequent the Billiards Room, you will soon be excited to see that we are now the proud owners of a 12’ Snooker Table. Snooker is a popular game around the world and we are excited to be one of the only facilities in the state of Florida that offers a 12’ table! Enjoy!
- A drink vending machine has been installed at the Shuffleboard pavilion for your convenience as well as new LED lighting under the canopy.

Bingo is Back! Please join us for Bingo on Tuesday nights starting at 7 p.m. in the Clubhouse Party Room. Non-residents must have a guest pass or Bingo Day Pass to enter and play. Passes are available at the Id Office during business hours or at the Staff Office Tuesday nights before bingo starts.

Clubhouse renovation construction is nearing completion and we hope to have the facility cleaned up and back in business as soon as possible! Don’t forget the Clubhouse will be closed on Thanksgiving Day, November 22. Thank you for taking the time to read this month’s updates and enjoy the month of November!

**Dennis Roy**

Text by JUDY SCHNEIDER

Durham T lost an important member of our family in August! Dennis Roy was known by everyone in our building, mostly at the Durham Pool and by many of the French Canadians. He was always there to help all and will be greatly missed. Our deepest condolences to his wife Shirley.

The following poem was written by one of his friends Duane Gill and was read at a Memorial Service held at the Durham Pool.

How does one say goodbye to a friend?  
One less person knows my name.  
My name is Duane.  
One less person knows hurt and pain.  
One less great story teller in the pool.  
One more person goes home to his creator.  
May the creator shine down all his blessings on my friend.  
One more person waits for us all.  
May you have fair winds and following seas.  
When I think of him it will be by his name.  
Dennis, leave room in the pool for me.

Issues with health

Health problems don’t always mean that driving needs to be stopped, but they do require extra vigilance, awareness, and willingness to correct them. Some health problems include:

- **Conflicting medications.** Certain medications or combinations of medications can affect senses and reflexes. Always check the label on medications and double check with your healthcare team if you are taking several medications or notice a difference after starting a new medication.

- **Eyesight problems.** Some eye conditions or medications can interfere with your ability to focus your peripheral vision, or cause you to experience extra sensitivity to light, trouble seeing in the dark, or blurred vision. Can you easily see traffic lights and street signs? Or do you find yourself driving closer and closer, slowing by a sign to see it? Can you react appropriately to drivers coming from behind or to the side?

- **Hearing problems.** If your hearing is decreasing, you may not realize you’re missing out on important cues to drive safely. Can you hear emergency sirens, or if someone is accelerating next to you, honking the horn?

- **Problems with reflexes and range of motion.** Can you react quickly enough if you need to brake suddenly or quickly look back? Have you confused the gas and brake pedals? Do you find yourself getting more flustered while driving, or quick to anger? Is it uncomfortable to look back over your shoulder or does it take extra effort?

- **Problems with memory.** Do you find yourself missing events that used to be second nature, or find yourself getting lost frequently? While everyone has an occasional lapse, if there’s a pattern that is increasing, it’s time to get evaluated by a doctor.

Issues on the road

- **Trouble with the nuts and bolts of driving.** Do you see yourself making sudden lane changes, drifting into other lanes, braking, or accelerating suddenly without reason? How about failing to use the turn signal, or keeping the signal on without changing lanes?

- **Close calls and increased citations.** Red flags include frequent “close calls” (i.e., almost crashing), dents and scrapes on the car or on fences, mailboxes, garage doors, and curbs. Increased traffic tickets or “warnings” by traffic or law enforcement officers.

A Message from Marty Kiar, Your Property Appraiser

Broward County Property Appraiser MARTY KIAR

New Home Purchase in 2018
All qualified Florida residents are entitled to a Homestead Exemption on their homes, condominiums, co-op apartments, and certain mobile home lots. To qualify for Homestead Exemption, you must own and make the property your permanent residence on January 1 of the year in which you are applying for this valuable exemption. Pursuant to Florida Statute, all assessments and exemptions are based upon the status of the property on January 1. If you purchased and/or made the property your permanent residence in 2018 but have not applied for Homestead Exemption, you can apply for 2019 exemptions at any time—there is no need to wait until 2019. You can easily apply online at www.bcpa.net or at one of our many outreach events. To view where our representatives will be assisting residents with filing for exemptions, please visit our event calendar at http://bcpa.net/Events.asp.

If you purchased your home in 2018, the tax bill you will receive from the Broward County Tax Collector is for the 2018 tax year. If the previous owners of your new home were entitled to and received Homestead Exemption or any other exemption on January 1, 2018, you may have inherited their exemptions on your 2018 property tax bill. Florida Statutes require these exemptions to be removed for 2019 and the Save Our Homes Value be brought up to the 2019 Just Value of your property. This will often result in an increase in your 2019 property taxes, so it is important you apply for 2019 Homestead Exemption and any other exemptions you may qualify for. Your new 2019 Homestead Exemption will be reflected next year on all 2019 property records, notices and tax bills. Should you have any questions regarding your new exemption, please contact our Customer Service & Exemption Department at 954.357.6830.

Broward County Tax Collector’s Office will mail Tax Bills in November. The Property Appraiser’s Office does not set or collect property taxes. We simply assess property and grant exemptions to qualified individuals. The Broward County Tax Collector’s Office will mail the 2018 property tax bills November 1, 2018. If your escrow company requests your tax bill, the Tax Collector will send you a courtesy copy of the bill in mid-November. All property tax bills are posted to their website at https://browardcountytaxes.com/public on November 1. Should you have any questions for their office, please contact them at 954.831.4000.

If my office can ever be of assistance to you, please do not hesitate to contact me directly at 954.357.6004 or by email at martykiar@bcpa.net.

Broward County Mails the 2018 Property Tax Bills
The Broward County Tax Collector’s Office recently mailed the 2018 tax bills to all property owners. While my office does not set or collect these taxes, I wanted to share important information about the payment options available to property owners. If you have any questions about your tax bill or payment, please contact their office directly at 954-831-4000. Tax bills are also available to view, print, and submission of online payment at www.browardcountytaxes.com starting November 1. For taxpayers whose bills are paid by escrow arrangement, a courtesy tax bill copy will be mailed in mid-November. Property taxes must be paid no later than March 31, 2019 to avoid delinquency interest and fees, but may be paid as early as January 1, 2018 to take advantage of early-payment discounts. Early-payment discounts for payments made in full are as follows: a four-percent discount if paid in November; a three-percent discount applies in December; a two-percent discount in January; and a one-percent discount in February. The discounted amounts that apply to each month between November and February are already reflected on property tax bill coupons. These discounts apply only to full tax payments. Making a partial payment of property taxes forfeits any applicable discount otherwise available for full tax payments. 2018 tax payments can be made by the following methods:

- Credit/Debit Card, or Online Payments at www.browardcountytaxes.com - use the search function to locate the correct tax account then follow instructions for payment by credit/debit card or eCheck. There is a non-refundable 2.55 percent convenience fee for credit/debit card payments. eCheck payments have no additional fee.

By Mailing a Check: use the green return-envelope enclosed with the tax bill or mail payment to Broward County Tax Collector, Processing Center, and P.O. Box 849575, Hollywood, FL 33084-9375. Always include the tax coupon with the check and record the tax account on the check to prevent processing delays. All check payments must be in U.S. funds issued from a U.S. bank account. The payment envelope’s postmark date is used to determine the applicable early-payment discount. If check payments are rejected or returned by your bank, the payment will be canceled, a return check fee will be charged, and discount deadlines will not be extended for substitute payments.

At any Wells Fargo Bank, Branch located in Broward County: all 2018 tax bills (no delinquent tax payments) may be paid at any Wells Fargo Bank/ATM machine in Broward County until March 31, 2019. Tax payments made at Wells Fargo must be paid in full only (no partial payments). Taxpayers must have their original 2018 tax bill to present to the bank at time of the payment. No credit, debit, or cash payments can be accepted by the banks for tax payment.

Partial Payments: 2018 taxes may be paid in up to five partial payments. Partial payments must be for a minimum of $100 and include a $10 processing fee. Partial payments forfeit all early-payment tax discounts that would otherwise apply to full payments. The final partial payment must be for the full remaining balance and paid by March 31, 2019 to avoid delinquency interest and fees on any remaining balance as of April 1, 2019. Partial payments cannot be made online or at Wells Fargo banks. For additional information, please contact the Broward County Tax Collector’s Office at 954-831-4000 or visit www.broward.org/RecordsTaxes Treasury.
An informed consumer is the best defense against scams and fraud. The Consumer Assistance Center staff is available to provide consumer information from 8am to 5pm, Monday through Friday, at 1-800-HELP-FLA (435-7352) or 1-800-FL-AYUDA (352-9832) or via Live Chat at FreshFromFlorida.com.

Product Packaging FDACS regulates all commodities sold by weight, such as deli meat, to ensure that consumers are provided the full amount of what is paid for. The department has adopted reasonable standards established by the National Institute of Standards and Technology to ensure consistency and accuracy in measurements.

To better serve consumers, package labeling must comply with certain standards. Information on package labeling must be displayed plainly and clearly, and the lettering color must conspicuously contrast with the background color. The required information falls into the following three categories:

1. Identity of the commodity in the package. The product identity must appear on the principal display panel of the package and must be: the name required by federal or state regulation; the common or usual name; or the generic name or other appropriate description, including a statement of function.

2. The name and place of the business that will be responsible for the product and the package. If the responsible party is not the manufacturer, then the label should reveal the responsible party’s connection to the package, such as Manufacturer for and packed by, or Distributed by.

3. How much of the product is in the package in terms of weight, measure or count. This must appear on the principal display panel of the product package. Product packaging, referred to as tare, should not be included in the price of the products sold by weight.

Proper packaging and consumer awareness can play a major role in maintaining a fair marketplace. For more information about product packaging or to file a complaint, consumers can call 1-800-HELP-FLA (435-7352) or go to FloridaConsumerHelp.com.

Student Loan Scams Thousands of students are set to begin their first year at a Florida university or state college, and many will use student loan assistance. Debt relief companies often target new students with the promise of student loan debt relief or reduction. Students who pay these companies frequently don’t get their student loans forgiven or reduced. Often, at best, the companies are able to put loans into deferment while the loan’s interest keeps growing. At worst, students were defrauded out of thousands of dollars.

Before you pay a debt relief company, watch out for these signs of a scam:

• Never provide personal information, such as Social Security numbers or financial information, on an unsolicited call. If you receive a suspicious call, contact your loan servicer or the U.S. Department of Education to verify the information.

• A U.S. Department of Education seal does not mean a company is legitimate. Scammers typically use official-looking names, seals and logos to convince you that they have special access to certain repayment plans, new federal loan consolidations or loan forgiveness programs. If you have federal loans, go to the U.S. Department of Education directly at StudentAid.ed.gov to find out what options are available to you.

• Be wary of upfront fees. If you pay to reduce or eliminate your student loan debt, you might not get any help or your money back.

• Scammers may promise to dissolve your loans through a loan forgiveness program or by disputing the loans. However, no one can promise total loan forgiveness.

• Some scammers will advise that you stop paying your student loans. Not paying student loans can damage your credit and your loan balances could balloon, and there’s no guarantee that a company will be able to get a settlement.

• Some companies may tell you they can lower your monthly payments or interest rate by combining your federal and private student loans. However, consolidating federal and private loans comes with a cost. Doing so eliminates many benefits and protections offered by federal loans.

The Division of Food Safety monitors food from the point of manufacturing and distribution through wholesale and retail sales to ensure the safety of public food, wholesome and properly represented food products. The Consumer Product Safety Commission provides consumer product recall information as part of the agency’s mission to protect consumers and families from hazardous products.

The Florida Department of Agriculture and Consumer Services is the state’s clearinghouse for consumer complaints, protection and information and regulates various business industries operating in Florida. FDACS provides a variety of resources at FloridaConsumerHelp.com to protect Florida consumers and ensure they have the information they need to make informed decisions.

• The A to Z Resource Guide is an online directory to help Floridians find the most appropriate government agency to contact for various issues.

• The Business/Complaint Lookup is an online resource that allows consumers to view businesses’ registration and complaint information.

• Check-A-Charity is an online searchable database that provides consumers with registration and financial information for charitable organizations that solicit charitable contributions in Florida.

• File a Complaint online or request to have a complaint form mailed to you by calling the Consumer Assistance Center at 1-800-HELP-FLA (435-7352) or 1-800-FL-AYUDA (352-9832).

• Join the Florida Do Not Call List or report unwanted sales calls.

• Request a Speaker, at no cost, for your community or club meeting.

The Art of the Shopping

I love to shop. My wife loves to shop. So, we are perfect for each other. The latest innovation is to shop online or by catalogue. Many of us receive emails from Evine or Wayfair. Many go to their computers or iPads to check in with Amazon or Target, Sears, Costco, and Macy’s. Others depend on the quarterly publications that come our way including LL Bean.

The millennials are always busy and have too much going on in their lives to spend any amount of time to shop, chat, relate, or even stand still and maybe observe what’s going on. I can’t imagine why they may be so consumed with their lives. Our generation always had time for everything including shopping in the stores now known as brick and mortar or big box. I despise those references.

Working in major department stores for so many decades, I resent reducing those beautiful buildings, chandeliers, displays, window changes, mannequins, and buffed tiled floors to big box terminology. Management was always on the floor to, among other duties, service customers. Staff were always on the floor to, among other duties, service customers. Some senior employees would wear their best outfits and their finest accessories to service customers, especially in the Fine Jewelry departments. Or, in the Better Handbag or Women’s Coats, Boutique Dresses, and, of course, Children’s departments.

But now those days are gone. The days of paying attention to customer’s needs and wants disappeared when the millennials appeared. The thing that is missing now is the interest and ability to see the complete selection, colors, sizes, and fit. How do you try on clothing? How can one see the true color selection, or get questions answered, or see sizes? How can a customer see related merchandise instead only ordering the one item on your computer? What about returns? In a department store you can leave unwanted items in the fitting room or back on the rack or table.

Now, the reason for this lengthy essay is this. We were spending some time in Bealls. Shopping. Their advertising was superb for that one-day sale. First, the regular 20 percent to 50 percent reductions on most merchandise. Then, coupons for extra percentages off. And, finally, receipts for additional dollar reductions. During this day it seemed everything was coming together like a perfect storm.

The Men’s Department. The Home Goods Department. The Women’s Departments. Then, Bedding. Finally, Ce and I met in the Shoe Department. We were both trying on items. Myself, athletic shoes with and without laces. Funny, that each manufacturer had different size fits. She, fashion type leisure slip-ons and some sneakers. Each style and vendor were different. That lets Amazon out for at least us—the ability to find the correct size, fit, color, and selection. We were agreeing or disagreeing on our selections.

We were being observed by a young woman also trying on shoes and sneakers as boxes were everywhere. She came over and politely stated, “How long have you been married?” I followed with “Almost fifty-two years?” “Why?” “Because only an older married couple would be bantering like that.” That word is defined in the Collegiate Dictionary as the playful and friendly exchange of teasing remarks. And talk or exchange of remarks in a good-humored teasing way. You don’t get this interaction online. I would miss that. Wouldn’t you?
Summer Tennis League

Text by LARRY COHEN

The summer tennis league has had a tremendous season. All matches were played at the Richmond tennis courts and the turnout was great. Special thanks for this great season go to Alan, Mike, Janet, Joel, Bob, Floyd, Surrie, Georg, Martha, Ron, Gilles, Marion, Rachel, Linda, Marjorie, Leon, Ted, Jerry and many others. We had great camaraderie on the court and everyone enjoyed playing the game of tennis. To finish off the season we had a big party at the City Pub where we ate, danced, sang, presented awards and everyone had a good time. Entertainment was provided by Juggles the Clown. Mitzi helped us in line dancing and Didi showed us different methods to keep our body in shape! Special thanks go to Janet, Joel, Jeanie, Linda and others who helped make this evening such a success. For dessert we had cake which was designed in the shape of a tennis court but so delicious and enjoyed by all! Now all the players are getting ready for the winter tennis league.

Tips for Traveling

Be Practical When Packing

Pack light. For a person traveling with at least some limitation, aim to pack everything necessary in a roll-aboard suitcase plus a medium size over-the-shoulder carry-on. Do not check the roll-aboard as luggage, as in-cabin flight staff will gladly stash it in the overhead rack. Such will save a lot of time at the final destination airport.

All prescription and over-the-counter medications should be placed in a one quart zip lock freezer bag, including also copies of any prescriptions and/or physician statements in the hand carry bag. Do not place the pill combinations separately into a separate plastic box as “the next combined dosage.” Such will never get through security. Enclose also any medical appliances such as extra braces or first-aid needs.

If toting gifts to relatives, do not wrap them. Place the items in the roll-aboard luggage.

Think about Safety, Security and Comfort

There are thieves everywhere and, particularly, in high-traffic travel centers. Don’t give the scalawags any opportunity to steal from you.

Women should not carry a purse but, instead, a money belt worn under a blouse or a neat Passage Wallet hidden under their coat by a neck cord. Men should not carry a wallet in his back pocket but, instead, the same Passage Wallet from the neck cord or as a hidden wallet tucked into his pants and secured by a cord to his belt.

If traveling alone, always keep your carry-on between your feet when standing, or with the shoulder strap looped around the leg of a chair when seated.

For comfort, consider the purchase of a travel pillow, a c-shaped balloon that supports the neck and head when resting aboard transportation.

The Significance of Veterans Day

By MICHAEL ROSENZWEIG

Veteran’s Day is the day when we honor the service of military veterans and persons who have served in the armed forces. It is celebrated on the 11th day of the 11th month. In 1918, it marked the date and time that the Armistice with Germany went into effect at the end of World War I. From 1918 until 1945, November 11 was known as Armistice Day. By 1945, the idea to expand this holiday to remember those who have served in the armed forces—known today as Veterans Day—was firmly established.

Veterans Day is a recognized federal holiday. When the 11th of November falls on a Saturday or Sunday, it is observed on the preceding Friday or the following Monday. Since Veterans Day and the birthday of the United States Marine Corps (November 10, 1775) are only one day apart, Marine Corps (November 10, 1775) are only one day apart, the Marine Corps customarily observes both occasions as a 96-hour liberty period.

Regardless of the name of this holiday, we should take some time to honor our veterans for their service to our country. Display a flag near your front door, visit a military gravesite, place a wreath or flag on a grave, go to a Veterans parade and let those in uniform know how much we appreciate their sacrifices and how much we support their efforts. Don’t take our freedom and liberty for granted, thank our veterans.

The Thanksgiving Holiday

By MICHAEL ROSENZWEIG

Thanksgiving is one of our national holidays celebrated for the blessing of the harvest and a time to give thanks for surviving the long journey from England through storms and icebergs. Some attribute Canadian Thanksgiving to the French settlers who came to New France with explorer Samuel de Champlain in the early 17th century, celebrating their successful harvests. The first Canadian Thanksgiving was held in 1621 at Plymouth in Massachusetts. This feast and Thanksgiving were prompted by a good harvest. Pilgrims and Puritans alike held an annual harvest festival in New England commencing in the 1660s. Thanksgiving was first celebrated on the same date by all states in the U.S. in 1863 via a presidential proclamation of Abraham Lincoln. On December 26, 1941, President Franklin D. Roosevelt signed a joint resolution of Congress declaring the fourth Thursday in November as the national holiday.

Harvest festivals like our Thanksgiving are celebrated in many countries, including Grenada, Liberia, the Netherlands, Australia, and the Philippines, Saint Lucia, the United Kingdom, Germany and Japan. Nowadays the President of the United States issues an annual proclamation on Thanksgiving and pardons a turkey to roam freely for the rest of its life. HAPPY THANKSGIVING!

Beauty from the Inside Out for Men and Women with Super Fruits

By ELLEN KAMHI PhD, RN, AHG, AHN-B/C /The Natural Nurse*

There are many foods and nutrients that span the bridge between cosmetics and nutrition. They can be used as an ingredient that can be added to skin creams, shampoos and other personal-care items, and also as a supplement that can be taken internally along with other health-enhancing nutrients that support skin and hair, as well as used as a food.

An excellent example of these kinds of foods are Super Fruits. These include:

- Goji
- Acai
- Noni
- Pomegranate
- Green Tea (leaves)
- Mangosteen
- Green Coffee Bean and Red Coffee Fruit

These super fruits have a long history of use by traditional people in the areas where they are found, as well as scientific data substantiating their high level of healthy antioxidants.

Goji (Wolfberry) has been treasured for centuries by the Himalayan people, and the berries of the Goji plant (Lycium Barbarum) have been consumed daily by many of the world’s longest living people.

Acai is a berry harvested from the Brazilian rain forest, where natives believe the Acai berry to have amazing healing and nutritional properties. Studies show that Acai has up to 33 times the antioxidant content as red wine grapes. Noni grows in the Caribbean, Tahiti and Hawaii, producing a strange white, soft fruit. It is harvested when it is ripe, and pulverized, then strained it to make a healthful drink, high in enzymes and other factors that support healthy skin and hair.

Mangosteen is called queen of the fruit due to its delicious flavor and traditional medicinal use. It contains a wide range of antioxidants such as a polyhydroxy-xanthone derivative called mangostin.

Green Coffee Bean is the unroasted, unextracted seed harvested from coffee plants, while Red Coffee Fruit is the fruit of the coffee tree. Both are high in beneficial antioxidants, which gives coffee beans and fruits one of the highest ORAC values found in nature. ORAC stands for oxygen radical absorbance capacity which measures the ability of a substance to stop cellular damage caused by free radicals. Green coffee beans are high in Chlorogenic Acid, which may be linked to its energizing and fat burning capacity.

Pomegranate literally means apple with many seeds. This ancient fruit has been linked to fertility and beauty. Modern science confirms its use in topical applications, due to suppression of lipid oxidation due to high ellagic acid levels (Aschoof F, et. Al. Involvement of lipid peroxidation in necrosis of skin flaps and its suppression by ellagic acid. Plast Reconstr Surg. 1994 Dec; 94(7):1027-37) as an enhancer of effects for sunscreens (Murdah H, Shellow VRW. Pomegranate extract both orally ingested and topically applied to augment the SPF of sunscreens. Cosmet Dermatol 2001;14(10):43-5). All of these Superfruits are attractive and can often be seen on labels of healthy beauty products can support skin health when used for beauty from within as well as to topically be sure to check other ingredients to avoid potential toxins, such as methyl parabens. You can visit the Environmental Working Group, at https://www.ewg.org/skindeep/ You can type in the name of the product you are using, and you will get a full evaluation of the possible toxicity of the various ingredients.

Deerfield Beach Computer Club

Text and Photo by CAROL FREEDMAN

The Deerfield Beach Computer Club is waiting for you with our weekly meetings in Room B in The Le Club Activity Center every Friday from 10 to 11:30 a.m. (excluding holidays). It doesn’t matter how little or how much computer knowledge you may have, there’s always something new to learn, and it’s a great place to exchange information and make new friends.

Most sessions involve building some computer skills as well as cool sites to check out, important safety tips, and neat new gadgets you didn’t know you wanted. We’ve just finished learning (or re-freshing) basics like the most useful functions and shortcut keys for everyday computer tasks, tips on how to increase your text size or screen display using commands or the scroll wheel on your mouse...and lots more. Upcoming sessions will include email tricks and tips, the latest on anti-virus programs, the insider’s look at Voice Assistants like Alexa and her friends.

We’ll have classes and guest speakers throughout the season giving helpful tips on using your Android, Apple, and Amazon devices, as well as PCs and multiple computers, best software, cool gadgets, and much more. Check out our secure website at https://www.db-cc.net for great links and the calendar of upcoming sessions.

If you have any questions, please contact Barry, our Club President, at 954-725-9331 or send an email to president@db-cc.net. You may also contact Pete Zambito, a resident of Century Village, at 954-941-4879 or send an email to Petezambito@bellsouth.net. Remember we always have a place for you at one of our tables.

Esther Tulloff’s Heroic Adventures of Tragedy and Triumph

Writing is the most difficult task because of her excruciatingly painful arthritis: Esther is also computer illiterate as are most seniors in her generation. This year, there are many more opportunities at CVE to fulfill the dream of becoming a celebrated published author, and the center of attention at your next family gathering.

Deerfield Progressive Forum Begins 41st Year in CVE

By PHYLLIS KERNOFF MANSFIELD

We are excited to be offering another outstanding series of programs this winter, starting with a talk by Mike Badd, Vietnam Revisited, on Saturday, December 15, 10 a.m. – noon, in the Activities Center of Le Club (near the West gate). Following that, there will be 13 more Saturday programs in the same location, until March 16, 2019, with just one skipped week on December 29.

Our presentations feature well-known speakers covering a broad variety of current topics, such as health care, gun control, drug use and politics. Audiences have found our talks to be inspiring, sometimes controversial, but always interesting!

We are particularly excited about our February 2, 2019 presentation. On that date, we will be featuring a panel of students and faculty from the Marjory Stoneman Douglas High School in nearby Parkland, the site of multiple shootings by a former student last spring. This panel will include personal reflections and address current controversies around gun control in this country. Their talk is entitled The Parkland High School Massacre: One Year Later.

Part-Time Faculty

The solitude of the part-time windowless cubicle
Motivates the human spirit to sublimate
The loneliness of the teaching profession
The impulses it thwarts
Aloneness, alienation, a strange disconnect
Disaffiliation, disempowerment
From everybody else
Our disposition may be a mere pretence
For the mind may make little sense
Of the cloistered room shared by eight
Has one ancient computer that’s not so great
Reflecting the transient nature of the paper chase
The collective computer login lacks modicums of grace
It highlights the transient space
Collective marginalization, no real place
Login: H 1225:32 representing the Hall building location
Political Science Part-time Office H 1225:32 no innovative sensation

We are all temporary, one way or another
The French term Charges de Cours
Literally means, in charge of the course
I see, I hear, I accept
With no malice within my chest
Without cursing the school and the rest
I must always be thankful
And hope for the best.
For the millionth time
What is easier done?
Than said
For we are academics
We have our fun
Telling our students
Just how nothing
May be done
My faith in teaching is immense
Just one factor spoils it
Our pretence
Of - legitimate omniscience.

Happy Thanksgiving

Thanksgiving Day is almost here.
we welcome our friends and relatives from far and near.
The airplanes are full,
people traveling, all wanting to be together.
It doesn’t matter if it snows or rains or if we have sunny weather.
The kitchens are busy with all the trimmings too,
the smells of Thanksgiving with turkey and delicious stuffing awaits me and you.

What a wonderful holiday is Thanksgiving for our loved ones to share.
Let’s pray for another Thanksgiving to join together in harmony again next year...

Writing

Writing is a lonely profession
It’s mostly done by one
you read it over
often rewrite or tear it up
sometimes it’s not even fun.

But when you write
and you get it right
you get much satisfaction
and clout
that’s what a writer feels,
that’s what it’s all about!!!

~ SANDI LEHMAN
On Aging Angst

Separation anxiety caught in the grip of explanatory drive
Looking for answers graven at your consciousness
Suddenly there is clarity, the pieces fall into place
There is a serendipitous jolt of deep satisfaction
Abstract matters do not matter, knowing that there are lies
You’re straight faced as I cry
Projecting smarts and omniscience, sharing memories of grace
Where haircuts are more ceremonial…than functional
Nature does the barbers work
Confronted by the mystery, confusion or inability
To decipher sanity, morality, normalcy or even ethics
Indignant about the discrepancies
Of connecting the dots…with
Aching shoulders, creaky knees and cortisone shots
Being on the cusp of senescence
In a hard knock’s life, lead footed
Carefully deploying advantages while…
Racing around the stars, glowing in the night
Waiting for the golden wisps of dawn
Maturity midwifes poise, unflappable realities
Life is learning how to deal with the game
Avoiding bread and circuses, is life but a joke?
While remembering the electricity of our salad days
If we’re still upright
I’ll kiss you for the last time, sharing memories sublime
Of younger times, of loves iconic lines
On the right side of the dainties
Life is about learning to deal with loss
Relationships sour or disappear
We must look pass the loss
Be as pure as the sky washed by rain
And enjoy the process
Life is an amplified joy.

~ MARVIN HERSHORN

Nothing Lasts Forever

Everything has an expiration date,
because nothing lasts forever.

Enjoy what you’ve got for as long as you have it,
because nothing lasts forever.
(Later than you think always comes
sooner than you expect).

~ MARIA L. DRAKE

The Rainbow

Raindrops splatter on
my window pane
like marks of fingerprints
on my window frame.

Then the rain stopped crying
its droplets did end
and a glow of colors
wrapped around a curve
did descend.

It was a rainbow
curved and bent
could it be from
heaven sent?

~ SANDI LEHMAN

Faces

Faces, faces
we see many faces
from here and there
and distant places.

Where are the old familiar faces?
Have they gone away?
Or are they hiding in
their condos
watching TV day after day?

We all have two eyes, a nose
and lips too
we recognize old faces
yet we see other faces now
and we say that they
are new!!

**Cooke’s Look at Books**

By RICHARD WILLIAM COOKE

A monthly look at books of interest -- new and, occasionally, not-so-new, fiction and nonfiction -- available at local libraries, bookstores and from online booksellers.

The Gatekeepers

By Chris Whipple, Broadway Books, 385 Pages, $28.00

In this riveting, compelling new book, writer, journalist, filmmaker and 60 Minutes producer Chris Whipple has produced a non-fiction thriller, one that will keep readers glued to its pages well past bedtime.

Based on research and interviews with dozens of strategic White House insiders, the author writes about the power of a politician perhaps even more important than the president -- the president's Chief of Staff, the one who authorizes where the president goes, what he does, with whom he can meet, whom he can consult, whom he can trust.

In the telling, we learn that during the Watergate scandal, Richard Nixon and his chief of staff behaved less like seasoned Machiavellians than befuddled amateurs. Gerald Ford's chief, Donald Rumsfeld was all throtle, no brake, barked notes into a Dictaphone, installed a standing desk to keep meetings moving, forcing Alan Greenspan, plagued by a bad back, to lay flat on the carpet.

Ford's chief, Donald Rumsfeld was more like a band of brothers battling both the kind of political gridlock but to his own chief of staff.

Finally, Whipple addresses the early drama and craziness that would be President Trump administration's norm and how Chief Staff Reince Priebus's reign was quickly brought down, in part, by the Bannon/Kushner/Javanka triumvirate. In all, the book reveals, once again, how politics, especially at the top, is always a dirty, messy, dangerous business, one that mercilessly chews up and spits out its players.

**North: Finding My Way While Running the Appalachian Trail**

By Scott Jurek, Little, Brown, 292 Pages, $28.00

"On day thirty-nine we pushed until 2 in the morning," Author Scott Jurek writes. "I was stumbling in the dark, there was no place flat enough to lie down even if my team would allow me to. We were out of the Presidential Range, but the lesser-known Wildcats were just as formidable. We finally made it to the only place to sleep, the aptly named Imp Shelter where nocturnal rodents gnawed at our hanging packs and scurried over my nylon sleeping bag. I was frequently jolted awake by nightmarish micro-bursts of anxiety. I kept thinking Special Forces was trying to get me up, then I'd realize it was only mice, or rats, or worse."

Jurek is one of the world's best-known and best-loved endurance ultrarunners. After two decades of running he felt an urgent need to embark on a new challenge -- breaking the speed record for the Appalachian Trail where he would encounter all sorts of stunning danger, extreme physical and mental deprivation and near death.

When he sets out in the spring of 2015, Jurek anticipates pursuing terrain, forbidding weather and inevitable injuries. To complete running the 2,189-mile trail he will have to run nearly fifty miles a day, every day, for seven weeks. He knew he would be pushed beyond the limit -- that comfort and rest would be in short supply -- but he never imagined the physical and emotional toll the trip would exact. With the support of his wife and friends, plus the kindness of strangers, he ran, hiked and stumbled, one mile at a time, from Georgia to Maine. This is his stunning story, the experience of one man being stripped bare by the most demanding and transcendent effort of his life.

**The Source: How Rivers Made America**

By Martin Doyle, W.W. Norton, 349 Pages, $26.95

"America has more than 250,000 rivers over 3 million miles -- dissecting the fields, cities and forests of the nation," writes author Martin Doyle, Duke University Professor of River Science and Policy.

"These are world-class rivers. The Mississippi watersheds alone drains the rain and snow that falls on over 5 million square miles, generating 390 billion gallons of water per day, enough over the entire United States with three inches of water. The giant dams of the Columbia watershed alone drains the rain and snow that falls on over 5 million square miles, generating 390 billion gallons of water per day, enough over the entire United States with three inches of water. "If you want to understand the myriad ways in which land shapes society and society reshapes the land follow its rivers."

In this book, the answers are both impressive and unsettling.

**The Frozen Hours**

By Jeff Shaara, Ballantine, 525 Pages, $28.99

"September twenty-fifth will be exactly three months since the North Koreans launched their invasions," said General Smith to Colonel Puller, "I think the promised Syngman Rhee the South Koreans could have their capital back on that date. Makes this one major game."

"Hell of a way to fight a war," angrily responded Puller. "Make sure we win this anniversary dates. What does he think we're doing out here? I'm taking casualties, for God's sake. I can't just wallow into Seoul like it's empty. Those bastards will hold to every block, every house. This is going to be major, whether Mac likes it or not."

June 1950. The North Korean army invades South Korea. By November several hundred thousand Chinese troops have entered Korea and have squared off against the Americans in one of the deadliest campaigns in the annals of combat, the Battle of the Chosin Reservoir. In all, the Chinese sprung them.

Allied forces, already battling stunningly cold weather, are caught completely off guard. A force that was on the precipice of victory now finds itself on the brink of annihilation against an enemy that outnumbered them more than six to one.

In this new novel, bestselling author Jeff Shaara takes on the Korean war, transporting the reader to the critical moment in the history of America's Forgotten War, when the fate of the Korean peninsula lay in the hands of a brave band of brothers battling both the elements and a determined, implacable foe. Readers looking for an absorbing novel of combat and courage will be well rewarded.

Sudoku doesn’t require any special math skills or calculations. It is a simple and fun game of logic – all that’s needed is brains and concentration.

There is really only one rule to Sudoku: Fill in the game board so that the numbers 1 through 9 occur exactly once in each row, column, and 3x3 box. The numbers can appear in any order and diagonals are not considered. Your initial game board will consist of several numbers that are already placed. Those numbers cannot be changed. Your goal is to fill in the empty squares following the simple rule above.

1. Fill the grid so that the numbers 1 through 9 appear in each row.

2. Fill the grid so that the numbers 1 through 9 appear in each column.

3. Fill the grid so that the numbers 1 through 9 appear in each 3x3 box.

4. A complete Sudoku puzzle contains the numbers 1 through 9 in every row, column and 3x3 box.

Hint: Start with a square that only has three numbers missing. Look at surrounding squares and grids to see which numbers you need to fill that 3x3 grid.

The Puzzler
By CHARLES K. PARNES

A Canterbury Puzzle (adapted from The Canterbury Tales)
Three men met on their way to Canterbury when they decided to stop for lunch. One man Able had with him three bagels, the second man Baker had five bagels, and the third man Charlie had brought nothing to eat.

The eight bagels were cut up with a knife so that each of the three travelers had equal shares to eat. After finishing their lunch, the one who had brought nothing, took eight coins out of his pocket and said he wanted to pay his share.

The two men who had brought the bagels got into an argument as to how the eight coins should be divided. A crowd gathered and there were several suggestions. One suggested three for one man and five for the other, and another suggested that the coins should be split evenly between the two men who had brought bagels. They finally called a local friar to resolve the problem.

What do you think was the fair way to divide the money?

Stop Lines at Intersections
Many intersections are marked with stop lines to show where you must come to a complete stop. These stop lines help to set you farther back at an intersection to give larger vehicles more turning space. Always stop behind stop lines.

After a complete stop, you must yield the right-of-way to all other traffic and pedestrians at stop signs. Move forward only when the road is clear. At three-way and four-way stops, the first vehicle to stop should move forward first. If two vehicles reach the intersection at the same time, the driver on the left yields to the driver on the right.

Please DO NOT feed the ducks at the pool areas
It’s so tempting to want to feed the wildlife.

It makes us feel good.

The reality is the ducks come looking for a free meal at the pool areas. They are making a mess in the pools as well as on the decks. This is a health hazard and an inconvenience to everyone as the pool and/or pool areas have to be closed and cleaned and the pool treated for the feces that has gotten into the pool.

Sisters-in-law: How Sandra Day O’Connor and Ruth Bader Ginsburg went to the Supreme Court and changed The world by Linda Hirshman

Can you think of a better time to read about the tale of two women, so similar and yet so different, both committed to making a difference? Linda Hirshman says that her title tells it all, but I believe something more.

Did You Know?

Both women have traveled quite a journey before arriving on the Supreme Court. They began their careers at a time when women could be denied jobs, credit and even a place on a jury. Yet each has an extraordinary confidence beginning with believing that they could; they could be lawyers and they could be leaders. Hirshman ends her book with a chapter calling them both heroines; “O’Connor for being the perfect first, allowing for a blend of male and female to be natural, and Ginsburg for razor-sharp intellect and far-sighted strategy, and both for solidifying women’s rights law.” A perfect read for the times.

The Art of Joyfulness

By NANCY DUNCAN, Choraleers, Benefit Committee

What things give you purpose in your day-to-day life? A hobby, a social exchange with friends, a religious or spiritual activity, or maybe a sport have an occupation that gives them joy, and it’s easy to think of famous people who have shown this joy in their work. Take for example, La joie de Vivre, the painting by Picasso, who was so delighted in the new love of his life that his joy poured out in a kaleidoscope of color. Schiller, the German poet, who penned his poem “An Die Freude (To Joy),” expressed his joy in his God, his friends, his love; and Beethoven used some of the words of this poem in the final great choral movement of his Ninth Symphony. The music itself is incredibly uplifting and it is no surprise that the prelude to this movement – Ode to Joy – became the anthem of the European Council.

Joy in our day-to-day life is important; we usually say of our children, “I just want them to be happy,” because we know that joy and happiness add so much to living. But how to attain this for ourselves? We in CVE have ample opportunity to search for and achieve happiness – through uplifting readings from our well-stocked library, through religious services so easily reached from our location here, through being with others who enjoy similar pastimes, and through the ability to create our own spaces of joy in our lovely surrounding here. Many of us make music together; and whether it be choral or instrumental music, this is one of the most satisfying communal activities I know of.

Making music together is primal; we have done it for millennia because it gives us joy. It’s no different today, and the easiest way to make music is to sing. Nothing is needed except the wish to participate. We in the Choraleers have known this joy from the day we first stepped into the choir room at CVE, and there is nothing like the feeling we get from striving together to make something beautiful. In addition, those who join the Choraleers here at CVE bring a joy of friendship and that is remembered and missed when the season is over. Our weekly Wednesday morning practices are the highlight of our week, not only because we’re making music together, but also we’re experiencing la joie de vivre together. We invite you to come share with us and make music in a simple, caring, and accepting environment. Our object is to enjoy ourselves and to produce an annual concert that will bring others joy when they come to hear us. In this way, we share our love of music with others, and la joie de vivre just keeps on happening.

Join the CVE Choraleers

If you enjoy singing and meeting people, we invite you to join the Choraleers rehearsal every Wednesday starting November 28, 2018 at 9:30 a.m. in Music Room A. Our professional music arranger and director is Linc Lackey who together with our professional pianist, Billy Mac Cumber guide our chorus in two-part harmony. The CVE Choraleers chorus and soloists will be performing its 45th Annual Show on Wednesday, March 6, 2019, at 7 p.m. in the Theater. The Benefit Performance features the Choraleers soloists with guest performances by Tenor David Carson and Saxophonist Wes Anthony. I'm Just Asking

By LEN WITZMAN

In past years, I've been accused of being a grumpy old man who writes too much negative stuff. So, shocking as it may be, here's a totally positive spin article. I can hear the collective gasp and moans of the people who were upset about the same issues I wrote about. Buck up people, Mr. Grumpy will be back.

I was cleaning out the stor- age bin and found my dearly departed mother-in-law's journals and gave them to her for her 66th birthday. Am I sentimental or just cheap? Talk amongst yourselves. Anyway, here is a section we found fascinating.

Florence Jaffe writes, "By the year 2018 my 42-year-old daughter will be 66. I'd be 100 (if I make it). But even if I'm long gone, I won- der if there will be a computer in every home? I don't even understand computers but by then even people my current age will probably use them. Will people be able to see the person they are talking with on the phone. I don't think I would like that—imagine calling a friend when they are nude on the other end. Will people still get Social Security checks? Or will Congress still be trying to take away entitlements? Will the USA still be a democrac- y? Will the Islamic world be the world of the 21st century or will the fundamentalists win the minds of the people? Will air travel still be safe? But what is good all this wondering? By that time, I will have been cremated and my ashes scattered to the wind."

The Yom Kippur War 1973

By ROLF GRAYSON

A new Camal Nasser, the president of Egypt, who was both honest and honest of fanfare gathered all the help he could find and assembled a huge arsenal of military hardware and manpower for the Yom Kippur War.

Stalin desperately sought a much-desired access to the Middle East and supplied in great numbers anything Sadat wanted as he promised the Russian delegation total friendship. There was good reason for Stalin to side with Egypt as his help for Israel in the 1948 war years earlier did not yield him access to the hoped-for Middle East. It should also be remembered that it was they, the Russians, who had help to build the Aswan Dam for Egypt, that my friends however, may be for another time.

Although I have said it elsewhere, I still need to em- phasize again, "Not a single nation ever stood up for Israel trying to stop any attackers during any of those other five wars." To this day Israel gets blamed by the media for ter- rorist Hamas attacking them with hundreds of rockets. The one-sided reporting on any- thing from the Middle East is so unfair.

As for the Six-Day War June 1967 and as the other previous four wars, this was a total defeat. 1973, Sadat was ready for the new leader looking to take the man- tle of victory and reclaim greatness. So, under his able leadership he planned a Yom Kippur sneak attack as Jews were busy praying in their synagogues. It was indeed touch and go for a while, but slowly the tide turned and turned decisively.

I could fill a book when try- ing to relate all the stories we were told after visiting Israel, once Sadat had made peace with Israel. A new word Shuttle Diplomacy was frequently used during those days when Henry Kissinger shuttled be- tween Moscow, Washington and Cairo to negotiate a peace treaty which the Russians were very slow to face until their position became un- tenable than they rushed as fast as they could. The whole Egyptian third Army was encircled and paralyzied to move in any direction while Israel stood outside the gates of Alexandria.

Suddenly the Russians pressed for an urgent solution, which Kissing- er arranged for, after Egypt lost tons of equipment and many men.

The year 1978 saw presi- dent Sadat of Egypt as a great statesman, when he came to Jerusalem and addressed the Knesset offering and gladly receiving a peace treaty be- tween Egypt and Israel which has lasted right through until today. Unfortunately, Presi- dent Sadat was assassinated, but the current president SISI is also a very up-to-date modern Statesman good for the Middle East.

The whole Egyptian third Army was encircled and paralyzied to move in any direction while Israel stood outside the gates of Alexandria.

Suddenly the Russians pressed for an urgent solution, which Kissing- er arranged for, after Egypt lost tons of equipment and many men.

The year 1978 saw presi- dent Sadat of Egypt as a great statesman, when he came to Jerusalem and addressed the Knesset offering and gladly receiving a peace treaty be- tween Egypt and Israel which has lasted right through until today. Unfortunately, Presi- dent Sadat was assassinated, but the current president SISI is also a very up-to-date modern Statesman good for the Middle East.

The Yom Kippur War 1973

By ROLF GRAYSON

A new Camal Nasser, the president of Egypt, who was both honest and honest of fanfare gathered all the help he could find and assembled a huge arsenal of military hardware and manpower for the Yom Kippur War.

Stalin desperately sought a much-desired access to the Middle East and supplied in great numbers anything Sadat wanted as he promised the Russian delegation total friendship. There was good reason for Stalin to side with Egypt as his help for Israel in the 1948 war years earlier did not yield him access to the hoped-for Middle East. It should also be remembered that it was they, the Russians, who had help to build the Aswan Dam for Egypt, that my friends however, may be for another time.

Although I have said it elsewhere, I still need to em- phasize again, "Not a single nation ever stood up for Israel trying to stop any attackers during any of those other five wars." To this day Israel gets blamed by the media for ter- rorist Hamas attacking them with hundreds of rockets. The one-sided reporting on any- thing from the Middle East is so unfair.

As for the Six-Day War June 1967 and as the other previous four wars, this was a total defeat. 1973, Sadat was ready for the new leader looking to take the man- tle of victory and reclaim greatness. So, under his able leadership he planned a Yom Kippur sneak attack as Jews were busy praying in their synagogues. It was indeed touch and go for a while, but slowly the tide turned and turned decisively.

I could fill a book when try- ing to relate all the stories we were told after visiting Israel, once Sadat had made peace with Israel. A new word Shuttle Diplomacy was frequently used during those days when Henry Kissinger shuttled be- tween Moscow, Washington and Cairo to negotiate a peace treaty which the Russians were very slow to face until their position became un- tenable than they rushed as fast as they could. The whole Egyptian third Army was encircled and paralyzied to move in any direction while Israel stood outside the gates of Alexandria.

Suddenly the Russians pressed for an urgent solution, which Kissing- er arranged for, after Egypt lost tons of equipment and many men.

The year 1978 saw presi- dent Sadat of Egypt as a great statesman, when he came to Jerusalem and addressed the Knesset offering and gladly receiving a peace treaty be- tween Egypt and Israel which has lasted right through until today. Unfortunately, Presi- dent Sadat was assassinated, but the current president SISI is also a very up-to-date modern Statesman good for the Middle East.

Answer to the Puzzler from page 32-B

The eight bagels were cut up so that each of the three men would get the same amount to eat. The eight bagels were divided into two and two thirds bagels for each man.

Able who brought three bagels received two and two thirds leaving one third of a bagel to be eaten by Charlie.

Baker who brought five bagels received two and two thirds leaving two and one third of a bagel to be eaten by Charlie.

Therefore, Charlie received one third of a bagel from Able and Charlie received two and one third of a bagel from Baker.

Two and one third of a bagel is seven thirds.

So Able supplied Charlie with one third of a bagel and Baker supplied Charlie with seven thirds of a bagel. Based on this, the friar awarded Able with one coin and Baker with seven coins.
