

## GRADE 70 CHAIN

SIZE	FINISH	GRADE	W.L.L. (LBS)	LBS/100FT.
1/4"	Yellow Zinc Dichromate	70	3150	63
5/16"	Yellow Zinc Dichromate	70	4700	93
3/8"	Yellow Zinc Dichromate	70	6600	141
7/16"	Yellow Zinc Dichromate	70	8750	209
1/2"	Yellow Zinc Dichromate	70	11300	240

**WARNING: Do not use for overhead lifting and never exceed the working load limit.**

### Working Load Limit (WLL)

The Working Load Limits shown in this catalogue are applicable to products that are new or "in as new" condition. The Working Load Limits ratings refer to the maximum amount of force or load that the rigging product can carry under normal working/environmental conditions.

The Working Load Limits and Design Factor can be affected by wear, misuse, overloading, shock loading, side loading, corrosion, deformation, product alteration and other use conditions. Inspection of rigging products prior to use is required to determine whether the product continues to meet the assigned WLL provided in this catalogue, should be used at a reduced rating or removed from service.
