Commander's Corner: Our Post is doing well going into October of 2020 while COVID 19 continues to affect our economy. Thanks to our Kitchen Committee, Volunteers and the officers of the Post, we have prospered through the hard times. The governor has gone to Phase 3 in the state, meaning we are allowed to operate at 100% with no restrictions. Please understand that myself and your board will evaluate this and discuss it with the membership. We still have to follow local, county and State laws, rules and regulations. Please come out and participate in your Post. We are still looking for a Membership Chairman and to form a committee. Things are changing for the better and I am asking you to be a part of the change. The Post is not a building, it is the people and their involvement.
