

# LEPC REVIEW

## ENTERPRISE PRODUCTS ALMEDA TERMINAL

# ALMEDA TERMINAL

---

## ○ Facility

- 11650 Almeda Road, Houston, TX 77045

## ○ Site Leadership

- Jose Quiroga—Facility Manager
- Norman Slagle—Facility Superintendent
- Dwayne Zeno—Facility Safety Specialist

# FACILITY DESCRIPTION:

---

The terminal includes pipeline deliveries, pipeline receipts, truck racks, rail car racks and underground LPG storage wells leased from the Underground Storage Company.

Brine water for the wells is used to aid in inbound and outbound movements. The brine water is supplied by Texas Brine Company located inside the terminal at the N/W corner of the property.

Products received from trucks and railcars go into four onsite elevated bullet tanks and then injected into wells for storage. Products are loaded from wells into trucks and railcars for deliveries to customers.

The Almeda Terminal has the capability of loading and offloading eight rail cars at a time.
