HAPPIER YOU

⇒ Different browsers. Same solution. A cleaner, calmer way to work. ⇐

Chrome

Profiles + Tab Groups

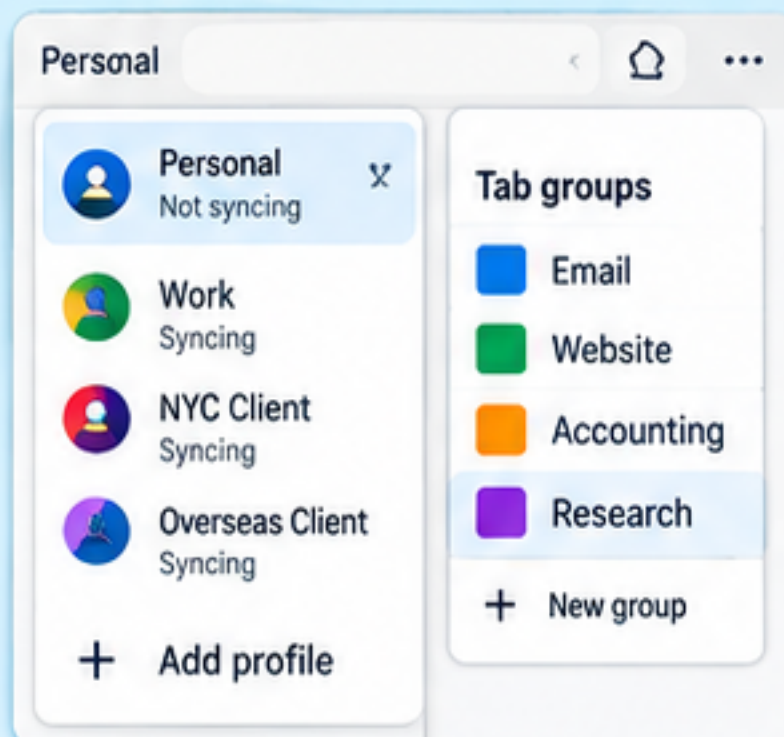

- ✓ Create a profile from your profile icon (top right).
- ✓ Open tab groups from the tab bar (right-click or Chrome menu).
- ✓ Name and color-code your groups for quick scanning.

Edge

Profiles + Tab Groups

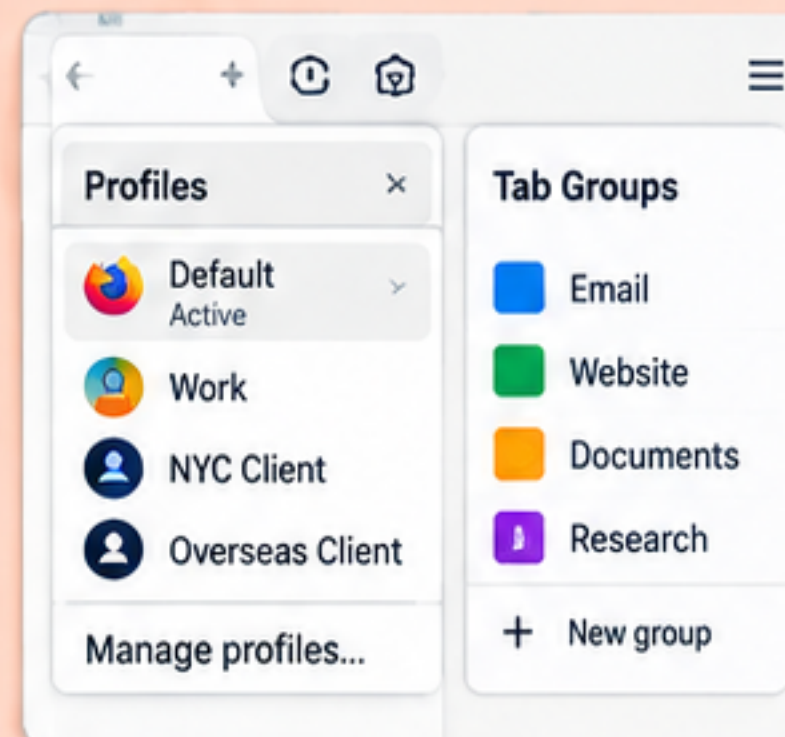

- ✓ Add a profile via the people icon (top right).
- ✓ Group tabs by right-clicking a tab or using the menu.
- ✓ Keep each group focused on one task or project.

Firefox

Profiles + Tab Groups

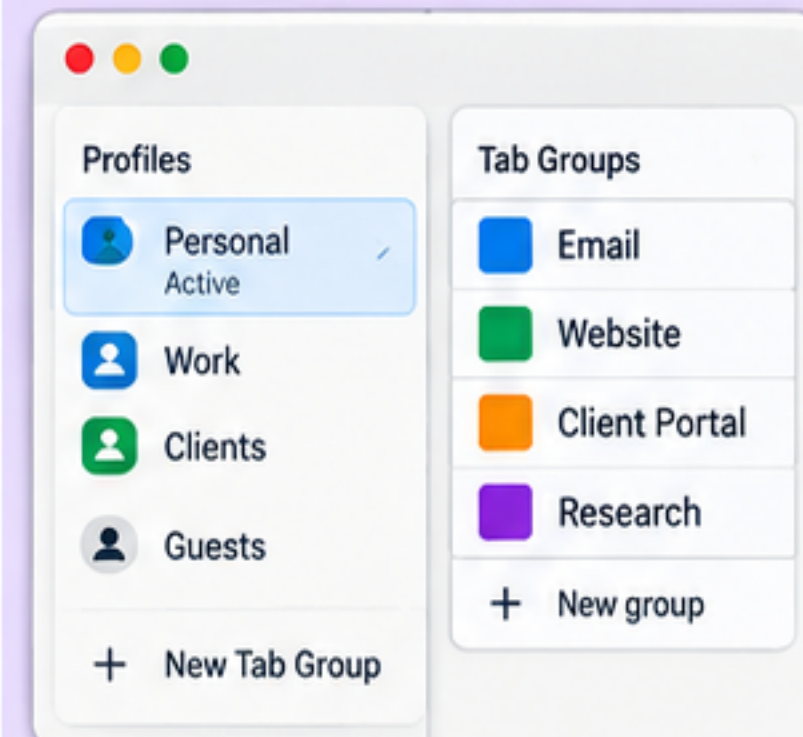

- ✓ Manage profiles from the menu (hamburger icon > Profiles).
- ✓ Use Tab Groups to keep related tabs together.
- ✓ Switch between profiles in seconds.

Safari

Profiles + Tab Groups

- ✓ Create profiles from Safari menu (File > New Window With Profile).
- ✓ Use Tab Groups from the toolbar or sidebar.
- ✓ Keep related tabs together and name your groups.

How It Works

1

Create profiles

One for you. One for each client (or project).

WHO are you working for?

2

Use tab groups

Group the tabs for email, websites, projects, research and more.

WHAT are you working on?

3

Switch with ease

Jump between profiles instead of hunting through a messy row of tabs.

GET MORE DONE.

Quick Benefits

Less confusion

Always know which account you're in.

More focus

The right tabs, for the right work, at the right time.

Fewer mistakes

Keep client logins, data and workflows separate.

A calmer, happier you

A tidy browser means a smoother day and more time for what you love.
