

HAMMOCK HACK THURSDAY

BEFORE YOU BUY ANOTHER APP...

*See what your Mac can
already do. ♥*

*The tools
you need
are already
built in. ♥*

- ✓ Fewer apps
- ✓ Fewer subscriptions
- ✓ Simpler workflow

POWERFUL BUILT-IN TOOLS FOR MAC USERS

CAPTURE EXACTLY WHAT YOU NEED

Built-in Screenshot Tools

Shift + Command + 4

Click and drag to select an area of your screen to capture.

Shift + Command + 5

Open the Screenshot app for more options:

- Capture entire screen or window
- Record your screen
- Set timer
- Show clicks and more

Where are my screenshots?

By default, screenshots are saved to your desktop. You can change this in Screenshot app > Options.

Add Control

Hold Control while using the shortcut to copy the capture to your clipboard (instead of saving a file).

CLIPBOARD HISTORY

Now Built Into macOS Tahoe 26

macOS Tahoe 26 introduces native Clipboard History!

Browse and paste recently copied:

- ✓ Text
- ✓ Images
- ✓ Links
- ✓ Files

Works right in Spotlight —fast and easy.

- 1 Press Command + Space to open Spotlight.

Search

- 2 Type "clipboard" and select Show Clipboard.

Show Clipboard

- 3 Browse your recently copied items.

Text

Image

Link

File

- 4 Click an item to paste it where you need it.

Pin important items so they stay available. Click the pin icon to keep items you use often.

UNIVERSAL CLIPBOARD

Copy on one. Paste on another.

Copy something on your Mac and paste it on your iPhone or iPad — or vice versa.

How it works:

- ✓ Sign in to the same Apple Account on all devices
- ✓ Wi-Fi and Bluetooth are on
- ✓ Handoff is enabled

It just works. Magic. ✨ ♥

SNIPPET + CLIPBOARD = DONE

Capture. Copy. Paste. Move on.

Capture

Shift + Command + 4 or 5

Copy (optional)

Hold Control to copy to clipboard

Access

Command + Space then "clipboard"

Paste

Click the item you need

No extra apps. No extra cost. Just a smoother workflow. ♥

MORE BUILT-IN TOOLS YOU MIGHT NOT KNOW YOU HAVE

Quick Look

Space bar
Preview files instantly without opening them.

Dictation

Fn (Function) key pressed twice
Speak to type anywhere on Mac.

Notes & Scan

Scan documents right into Notes using your iPhone or iPad.

Focus Modes

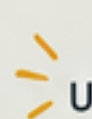

Reduce distractions and stay focused while you work.

A QUICK REMINDER

- ✓ Don't copy passwords or sensitive information.
- ✓ Clear clipboard history regularly.
- ✓ Be cautious on shared or public computers.

Work smarter. Keep it simple. ♥

Great tools are built in.
Use them. Save time. Save money.
