December 2019

HOLIDAYS

December 25th, 2019

Holiday Trash Tips

1. Don't advertise your new toys to the neighborhood! Instead of laying that huge flat screen TV box on the curb beside your trash receptacle, try breaking it down and placing it inside of a bag, then putting the bag inside your can. Because, remember, we only take bagged items!
2. When you get a new item to replace another, don't automatically toss the old item. Many appliance and electronic companies offer an exchange program. Is the old item still in good, working condition? Donate it to a local charity! Some items with rechargeable batteries could be harmful if placed in the trash. Rechargeable batteries can be recycled through mail-in, drop-off or take-back programs.
3. Consider how you place your trash. This is important to keep in mind if you are being serviced by our automated trucks. Keep your trash contained within the can and make sure the lid can close. Remember to place your cans with the handles facing the road.
4. Remember the weight limits! If you have an especially heavy item, or you feel tempted to try and fit as much as you can in your bags, consider utilizing our bulk pick-up referral program. We can help you arrange pick up for these larger or heavier items.
5. Split it up. Consider tossing perishable or odorous items and saving other non-organic items for the next week. This will reduce the roadside clutter, minimize the risk of wildlife tearing open your trash, and save you money by waiting instead of ordering a 2nd can.
