

# TANGLER TRASH NEWSLETTER

November 2020

## REMINDERS

**Seasonal trash pickup has ended.** If you would like to continue receiving trash pickup service during the off-season months please call us to update your service plan.

Cleaning your trash receptacle:

Now that autumn has arrived, it's a great time to refresh your trashcan. In order to ensure a long-lasting trashcan, we recommend you wash it out periodically. Leaked waste can cause odors and buildup over time. This can lead to an excess of flies and other vermin, as well as create an unpleasant odor around your home. To clean your trash receptacle: Use your garden hose to spray down the can, dip a large brush or mop into a bucket of warm, soapy water, scrub the can inside and out. Spray off any soap or residue and let air dry.

## LOCAL EVENTS
