

# MUNICIPAL ORDER WATER BAN

---

An irrigation water ban will be in effect due to increase demand of water; this is to ensure we have enough water in our reserves in case of a power outage or a water leak.

Therefore, the following shall apply:

- No person shall irrigate their lawn.
- Any one found irrigating their lawn will be subject to having their water turned-off for the weekend and will need to make an appointment to have it turned back on, with applicable fees.
- The ban is in effect on Saturday 28 June, 2025
- Irrigation may resume on Wednesday 2 July, 2025

Dated this 26 June 2025
