Dear TLJA Families:

The staff of the Timothy L. Johnson Academies work hard to ensure that all students and families feel welcome in our school. Recently, Timothy L. Johnson Academies took steps to improve the safety of our scholars. We now have two metal detectors at the entrances to our school as well as two School Resource Officers who work each day to ensure the safest possible environment for our scholars ensuring we do not allow individuals to enter our building without permission or clearance.

Feeling safe in our school is important to everyone. Our scholars must feel safe regardless of where they are from, their religion, race, or immigration status. We believe that each scholar adds to the richness of our learning environment and each scholar should be able to learn without fear.

Timothy L. Johnson Academies is committed to not asking about a scholar or parent's immigration status, including during the enrollment period. The staff of Timothy L. Johnson Academies is committed to following school safety rules and the applicable state and federal laws. These laws inform us as to who may contact students during the school day and who can see student documents. Please know that the TLJA staff is prohibited from sharing personal student information without permission from parents.

Be assured that Timothy L. Johnson Academies will continue to be a place where your scholar is free to learn in a safe environment. Should you have questions regarding this or any matter regarding your scholar, please contact the school administrators.

Sincerely,

The Timothy L. Johnson Academy School Board
