

# STEAM MAY

*newsletter*

Happy May, TLJA Families,

This month, all grade levels will be focused on wrapping up the year with some FUN while celebrating all they've accomplished in my classroom. During the first week, students will finish any remaining projects from the previous month. Once everything is completed, we'll spend the rest of our time enjoying hands-on science experiments and creative art activities to close out the year.

Below are a few photos I've collected throughout the year. Enjoy! Thank you for allowing me to be a part of your child's learning journey.

Ms. Bennett
