

Katie Kime

A World of Prints and Personalization

WHERE IT STARTED

It all began in 2013, when Katie Kime started making prints for furniture, clothing and stationery. Before she knew it, her creative passion had fledged into a print-based design studio in Austin, Texas. Today, our business is still guided by Katie's vibrant approach to dressing both herself and her home. Bringing color, whimsy and a sense of humor to the most functional, everyday pieces, our products are traditional ware meets colorful, modern prints — always optimistic, bright, and unexpected.

WANDER AND WONDER

Our libraries of prints - from The Natural World to Expression to Color Theory and beyond - celebrate the miracles of which Einstein speaks. We invite you in to wander and wonder. Our personalization tools - from customizable oxfords to designing your own gallery prints - celebrate the story only you know how to write. We invite you to curate and create.

Explore the world. Express yourself.
