# FLORIDA UTILITIES COORDINATING COMMITTEE

**MORE THAN 90 YEARS OF  
BRINGING THE UTILITY INDUSTRY  
AND FDOT TOGETHER**

*“Following a mid-career move into the utility industry, a co-worker suggested that I register for the next scheduled Florida Utilities Coordinating Committee meeting. By the end of my first meeting, I realized that the Florida Utilities Coordinating Committee (FUCC) was a truly remarkable organization. The topics discussed in the general sessions, educational presentations as well as the interest group meetings provided valuable insight into the challenges facing the utility industry. The FUCC meetings serve as an open forum for industry professionals to discuss their issues which often results in a collaborative approach to solving these challenges. FUCC’s triannual meetings offer valuable networking opportunities for its members to interact with other utilities, engineers, contractors, governmental agencies, and road authorities. The FUCC has benefited me both personally and professionally and I would encourage all utility industry stakeholders to participate and become involved in the Florida Utilities Coordinating Committee meetings.”*  
- Mr. Kris Hayes, Lakeland Electric

**ESTABLISHED 1932**

**FLORIDA UTILITIES EST. 1932 COORDINATING COMMITTEE**

### Our Mission....

To promote coordination and cooperation for co-habitation of utility facilities and travel ways within public right-of-way's, for the mutual benefit of all users.

## Who Are We?

We are a diverse group that are dedicated to the interests:

- CATV
- Power
- Water
- Sewer
- Telephone
- Gas
- Railroad
- Contractors
- Consultants
- Utility Notification
- Public Service Commission
- Governmental Utilities
- Governmental non-Utility/ Agencies

## Four Founding Principals

- Communication
- Cooperation
- Coordination
- Commitment

The  
4 C's

## Our Purpose

- Promote effective and equitable co-existence of utilities
- Use frank and impartial consideration of all matters
- Act as a liaison between the utility industry and government entities in reviewing, meeting
- Provide comments for rules, practices and policies

## What have we accomplished

- Establishment of Utility Accommodation Manual (UAM) Committee to discuss changes and updates that affect industry
- Help Local Agencies/ Municipalities develop utility relocation procedures
- Design Build Sub-Committee to discuss issues with utility work schedules and contractor related issues
- Provide the industry with educational workshops
- And much more...

## Why and Who should attend?

- Stay updated on latest changes from the FDOT and other Agencies
- Stay updated to changes with the Florida Statutes and Sunshine 811
- Voice concerns on issues affecting your company and/or agency
- Valuable Networking with industry partners
- Send the personnel who work directly with permitting, installations and relocations
- Great for Managers / Supervisors

## Membership - How to join

- Membership is **FREE**
- Costs associated with attending the conferences
- Held 3 times a year throughout the State
