

# SATELLITE

Post-Top Luminaire

Satellite is a post-top luminaire that provides glare-free and symmetrical brilliance. The design of the top shade ensures most of the light is directed downward and the anti-glare rings shield the luminaire from direct view.

An architectural luminaire that contains a modern unique look to enhance any area.

- Key Features
- Energy-saving and high-performance LEDs for economical operation
  - Assembled with UL-listed electrical components
  - Light is directed downwards providing a glare-free and symmetrical brilliance
  - Interval louver rings for protection of electrical components and to avoid direct eye contact with LEDs
  - Fastened with stainless-steel hardware
  - High-quality powder coat finish that aids in preventing corrosion and against harsh environmental conditions

KELVIN 2700K – 5000K

WATTAGE 26 - 55

DISTRIBUTION Type III or V
