START WITH A LONG LEAD

(15–30 feet) allows your dog to explore while you maintain control, which is great for recall training.

ADD HIGH VALUE TREATS

Think of treats as your puppy's paycheck! Using treats they absolutely love will make learning a breeze.

A close-up photograph of a dog's open mouth, showing its tongue and teeth. A small, yellowish-brown treat is visible on the tongue. The dog has dark brown or black fur. The background is a solid orange color.

A KONG, ALWAYS A KONG!

A classic! Stuff a Kong with kibble, berries, or treats and freeze it for a long-lasting, mentally stimulating chew toy.
