### 4 - FIRST AID MEASURES

**Description of first aid measures:**

*Inhalation:* Remove from exposure, get fresh air. If problems remain or occur later, get medical attention. Self-Contained Breathing Apparatus should be worn if exposed to large quantities.

*Skin Contact:* Wash off skin thoroughly with water. Remove contaminated clothing and wash before reuse. Obtain medical attention if skin is irritated or any symptoms develop.

*Eye Contact:* For eye contact, flush eyes with water for 15 minutes. Get medical attention if irritation persists.

*Ingestions:* Wash out mouth thoroughly with water and give plenty of water to drink. DO NOT induce vomiting unless told by a medical professional. Obtain medical attention.

**Symptoms and effects, both acute and delayed:**

See Section 11

### 5 - FIRE-FIGHTING MEASURES

**Extinguishing Media:**

*Suitable extinguishing media:* Carbon dioxide, dry-chemical or universal type foam

*Unsuitable extinguishing media:* Do not use a solid water stream as it may scatter and spread fire

**Special hazards arising from the substance:** No data available.

**Hazardous combustion products:** FIRE: Nitrogen oxides, carbon monoxide and carbon dioxide.

**Special protective equipment and precautions for firefighters:** Use Carbon Dioxide Extinguisher (suitable for class B and C fires) or Multi-Purpose Dry Chemical Extinguisher (suitable for class A, B and C fires)

---

## 6 – ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures:** Any/all persons dealing with the spill should wear appropriate personal protective equipment. Keep others away from spill/leak. Restrict access to area until the spill has been cleaned up.

**Methods and material for containment and cleaning up:** Use proper personal protective equipment. Isolate and secure the area and follow the appropriate emergency guidelines. If local high concentration of airborne mist occurs, dilute spill with plenty of water and ventilate to disperse mist-laden air. Sweep up spill and reclaim or place in a covered waste disposal container. Report spill to proper authorities.

---

## 7 – HANDLING AND STORAGE

**Precautions for safe handling:** Obtain special instructions before use. Wear proper personal protective equipment. Use only in well ventilated areas. Do not breathe vapors or spray mist. Avoid contact with skin, eyes and clothing. Keep away from heat, sparks and open flame.

**Conditions for safe storage:** Store in cool, dry, ventilated area away from any heat source. Storage area should be clearly identified and free of obstruction. Keep containers tightly closed and in an upright position when not in use.

**Incompatible materials:** Oxidizing agents, chromic anhydride, lead perchlorate, perchloric acids

**Other precautions:** None

**Section 7 notes:** Change contaminated clothing. Wash hands well after working with substance.

---

## 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure limits:** Limits for the components of Denatonium Benzoate, 40% in Propylene Glycol have not been established by OSHA and ACGIH.

**Exposure controls:**

**Ventilation and engineering measures:** Use ventilation if possible, e.g., fans or exhaust systems to keep vapor level below recommended exposure limits.

**Respiratory protection:** If good ventilation is not available, wear a respiratory device approved by NIOSH/MSHA for protection against organic vapors, mist and dust. If handling large quantities, use a certified SCBA apparatus.

**Eye protection:** Wear safety glasses with un-perforated side shields.

**Skin protection:** Wear chemical resistant gloves for long and repeated contact. Contaminated clothing and shoes should be cleaned before re-using.

**Other protective equipment:** Safety shower/eye wash

**General hygiene considerations:** Acceptable industrial hygiene practices should be maintained.
