## DETAILED BRIEFING

# HOW DO WE WORK?

Each event is unique. *We work closely with you to develop an event that is uniquely yours*, whether it's a small and intimate affair, a large-scale royal production, or an exotic destination event, our enthusiasm and creativity make it truly memorable and most importantly, *one of a kind*. We create a perfect experience catering to all cultures, budgets, styles and sizes.

Every client is different and unique for us and in order to deliver an event as per your liking, it is very important for us to understand you better. *We dive deep into your life to understand your likes, dislikes, expectations and the story around which this event is being created*. This helps us customize your event to its fullest and bring perfection to it.

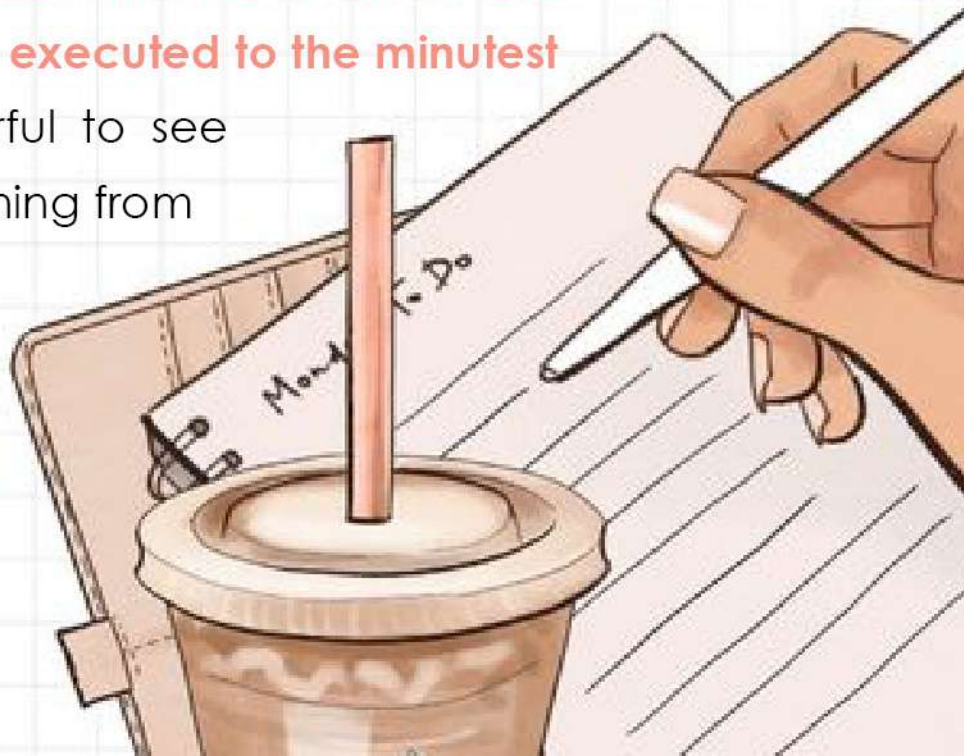

## EXECUTE

# Conceptualization, Planning & Management

After the detailed brief is received from your end, you can sit back and relax while we really get to work according to your likes and preferences. When all the research is done, the concept of the event is made around that. **From phone calls to appointments, bookings, selections, tastings, spreadsheets, confirmations, we manage and take care of every task.** We work round the clock with thorough rounds of revisions to finalise all small to big elements of the event. Budgets are made accordingly.

Last but not the least, this is where you see your dreams becoming real. **Our client servicing team and production Team is physically present at the event to see that the entire event is executed to the minutest detail.** It is truly wonderful to see things become something from nothing.

# How Do We Charge?

## Management & Execution Fee

Our fee is a fixed percentage on the overall billing for the things which are managed by us. The execution fee is for three site visits, mood boards, budget spreadsheets, creative presentations and detailed plans and show flow of all main functions, procurement of samples and co-ordination with suppliers. Each plan is personally curated by the team. Our team is physically present on each site to ensure that the design is executed to the exact detail. Each quote is tailor-made to suit your requirements and varies as per the destination, function, venue and number of guests.
