

## Policy regarding trash collection for Ashton Estates Community Association.

A motion was passed on Sept. 24, 2003 to authorize the Executive Board to investigate and purpose a single trash service for Ashton Estates. The proposal was sent to all members with ballots returned that overwhelmingly approved a single trash service. A letter was sent to all Ashton Estates association members on December 20th, 2003 that notified all members that every resident is required to use the selected company by January 1st, 2004.

The vote **requires** all Ashton Estates homeowners to use a single trash collection service as selected by the Ashton Estates Board. The currently selected trash service is **Waste Management**.
