JOB POSTING DESCRIPTION

ENVIRONMENTAL TECHNICIAN, SUDBURY OR NORTH BAY, ONTARIO

Greenstone Engineering Ltd. (Greenstone) is an environmental engineering and consulting firm serving private and public sector clients throughout Northern Ontario. We are seeking an Environmental Technician to join one of our highly motivated teams of specialized professionals in Sudbury or North Bay, Ontario. The ideal candidate will have a positive and solutions-oriented attitude, is highly organized and responsive, diplomatic, direct in communications, and will enjoy an energetic and collaborative work setting.

The primary responsibility of the role will be the coordination and completion of field work related to soil and groundwater sampling to support Environmental Site Assessments, Groundwater Monitoring Programs and Excess Soil project work. Additional duties will involve the preparation and completion of environmental reports and supporting documents such as summary tables, borehole logs and figures.

DUTIES

- Demonstrate a commitment to the Health and Safety culture within Greenstone.
- Complete soil and groundwater sampling programs in accordance with Standard Operating Procedures and appliable guidance documents.
- Supervise drilling and test pitting programs and the installation of groundwater monitoring wells.
- Collect, interpret, and manage environmental field data and laboratory results.
- Become a key member of Greenstone's Emergency Spill Response Team.
- Prepare technical reports and supporting documents.
- Complete field work in all seasons, including inclement weather.
- Travel to remote locations for extended durations.
- Occasionally work overtime and weekends to meet project requirements.

SKILLS

- Basic understanding of Ontario Regulation (O. Reg.) 153/04, O. Reg. 347, and O. Reg. 406/19.
- Self-directed and a strong attention to detail.
- Works in a team environment without direct supervision.
- Skilled writer and communicator.
- Proficient in Microsoft (MS) Office and 365 Suite and Adobe.

- Management of subcontractors, with a strong focus on health and safety management.
- Ability to promote team effort and collaboration.
- Capable of travel and remote work.
- Valid G driver's license in Ontario.

QUALIFICATIONS

- Bachelor's degree from an accredited university or a college level diploma in Civil Technology or related discipline from an CTAB accredited program.
- 0 - 3 years of related experience.
- Currently working toward a professional designation such as Professional Engineer (P. Eng.), Professional Geoscientist (P. Geo.), or Certified Engineering Technician/Technologist (C.Tech./C.E.T.) is not required but would be considered an asset.

Benefits Summary: Regular full-time employees will have access to health, dental, and vision plans, as well as a group registered retirement savings plan. The benefits also include life and accidental death & dismemberment (AD&D) insurance, short-term/long-term disability plans, professional membership fee coverage, and paid time off.

Job Type: Full-time

Schedule: Monday to Friday (40 hours per week)

Location: Must be located in Sudbury or North Bay area
