

Chief Estimator

Position Overview:

This client excels at Water and Wastewater infrastructure. They are dedicated to building lasting relationships and delivering top-quality work.

They are established as a leading force in Michigan's infrastructure projects. By joining them, you'll work on diverse water and wastewater projects across Michigan, tackling unique engineering challenges and making a tangible impact on communities.

If you are experienced and passionate about construction, and you enjoy rolling up your sleeves to overcome challenges, this client company is the perfect place for you.

The Chief Estimator will join the client's esteemed estimating group at their Novi, Michigan headquarters. This high-profile role offers excellent growth opportunities and involves working closely with the senior management team to develop comprehensive construction cost estimates, for lump sum General Contract and Design/Build projects.

The client's projects encompass renovations and new constructions of:

- Water and wastewater treatment plants
- Pumping stations
- Storage reservoirs and retention basins
- Water transmission facilities
- Wastewater conveyance systems

Responsibilities:

- Prepare detailed cost estimates for the civil/site work, including:
 - Structural Concrete
 - Excavation and Grading
 - Structural/Selective Demolition
 - Site Utilities
- Develop work scopes and solicit subcontractor pricing for the remaining civil/site and architectural work necessary for our projects.
- Work closely with senior management to analyze project requirements, assess risks, and determine cost-effective solutions.
- Employ computer-based estimating tools and software to enhance accuracy and efficiency.
- Knowledge of HCSS Heavy Bid and Primavera P6 software is beneficial.

Qualifications:

- Bachelor's Degree in Construction Management, Civil Engineering, or a related field
- Proven track record in construction cost estimating, preferably within the water and wastewater infrastructure sector
- Strong computer-based estimating skills are required
- Experience with HCSS Heavy Bid and Primavera P6
- Excellent analytical and problem-solving skills, with a keen attention to detail.
- Strong communication and interpersonal skills to effectively collaborate with team members and external partners
