

Director of Clinical Engineering

Position Summary:

Provides overall management and supervision of the assigned account assuming full responsibility for the account's operational and fiscal performance.

Job Description:

Our client is seeking an experienced individual for a Director 2, Clinical Engineering opening to manage Genesis Healthcare in Zanesville, OH. This person will oversee numerous types of medical equipment, offer hands-on experience, and provide leadership & process-improvement knowledge to staff. This individual should be a high-level leader that can manage a team of supervisors and technical professionals. This is a fantastic opportunity for any accomplished HTM leader looking for growth & opportunity.

What You'll Do:

- Oversee and manage all aspects of the clinical engineering program at Genesis Healthcare.
- Lead a team of supervisors and technical professionals, providing guidance, mentorship, and performance management.
- Ensure the effective maintenance, repair, and calibration of a wide range of medical equipment.
- Drive process improvement initiatives to enhance efficiency, compliance, and service quality.
- Collaborate with hospital leadership and clinical teams to align biomedical services with patient care priorities.
- Monitor compliance with regulatory standards, safety protocols, and hospital policies.
- Manage departmental budgets, vendor relationships, and contract negotiations as needed.
- Identify opportunities for team development and continuous improvement in healthcare technology management (HTM).

Qualifications and Skills:

- Bachelor's Degree or equivalent experience.
- Basic Management Experience – 5 years
- Basic Functional Experience - 5 years in maintenance and repair of clinical devices.
- 5 years of experience managing biomedical services within a large healthcare system.
- Experience collaborating with executive leadership and C-suite stakeholders to align HTM strategies with organizational goals.
- Strong working knowledge of regulatory compliance standards, including CIHQ, DNV, and Joint Commission (JCAHO).
- A solution-oriented mindset with sharp critical thinking skills and the ability to successfully navigate and resolve conflicts.
- Ability to deliver exceptional service and build lasting partnerships with customers, staff, and vendors.

Tech Search Pros is an equal opportunity employer. All applicants will be considered for employment without attention to race, color, religion, sex, sexual orientation, gender identity, national origin, veteran, or disability status.

- Strong business acumen with demonstrated agility and sound decision-making skills, particularly in budget management.
- Track record of leading high-performing teams, including mentoring and developing both new and existing talent.

Key Duties:

- Oversight of all clinical staff for program management and regulatory compliance
- Project Management/Capital Planning
- Client/customer relations
- Purchasing / Subcontracts
- Financial
- Hiring, training, people
- Growing Organic sales
